Waivers

The waiver system is a procedure by which player contracts or NFL rights to players are made available by a club to other clubs in the League. During the procedure the 27 other clubs either file claims to obtain the players or waive the opportunity to do so—thus the term "waiver." Claiming clubs are assigned players on a priority based on the inverse of won-and-lost standing. The claiming period normally is 10 days during the off-season and 24 hours from early July through December. In some circumstances another 24 hours is added on to allow the original club to rescind its action (known as a recall of a waiver request) and/or the claiming club to do the same (known as withdrawal of a claim). If a player passes through waivers unclaimed and is not recalled by the original club, he becomes a free agent. All waivers from July through December are no-recall and no withdrawal. Under the Collective Bargaining Agreement, from February 1 through October 11, any veteran who has acquired four years of pension credit may, if about to be assigned to another club through the waiver system, reject such assignment and become a free agent.

Active List

The Active List is the principal status for players participating for a club. It consists of all players under contract, including option, who are eligible for preseason, regular season, and postseason games. Clubs are allowed to open training camp with an unlimited number of players but thereafter must meet a series of mandatory roster reductions prior to the season opener. Teams will be permitted to dress up to 45 players for each regular season and postseason game during the 1983 season. The Active List maximums and dates for 1983 are:

August 16 ..... 60 players
August 23 ..... 50 players
August 29 ..... 45 players

Reserve List

The Reserve List is a status for players who, for reasons of injury, retirement, military service, or other circumstances, are not immediately available for participation with a club. Those players in the category of Reserve/Injured who were physically unable to play football for a minimum of four weeks from the date of going onto Reserve may be re-activated by their clubs upon clearing procedural recall waivers; in addition, each club will have three free re-activations for players meeting the four-week requirement who were placed on Reserve following the final cutdown. Clubs participating in postseason competition will be granted an additional free re-activation. Players not meeting the four-week requirement may not return in the same season to the Active List of the club which originally placed them on Reserve, but may be assigned through the waiver system to other clubs. Early in 1984 all clubs who had players on Reserve/Injured must declare a maximum of three players, from those meeting the four-week requirement, as tradeable in that year; others who were on the list cannot be traded until 1985. Players in the category of Reserve/Retired may not be reinstated during the period from 30 days before the end of the regular season on through the postseason.

Trades

Unrestricted trading between the AFC and NFC is allowed in 1983 through October 11, after which all trading will end until January 30, 1984.

Tie-Breaking Procedures

The following procedures will be used to break standings ties for postseason playoffs and to determine regular season schedules.

To Break a Tie Within a Division

If, at the end of the regular season, two or more clubs in the same division finish with identical won-lost-tied percentages, the following steps will be taken until a champion is determined.

Two Clubs

1. Head-to-head (best won-lost-tied percentage in games between the clubs).
2. Best won-lost-tied percentage in games played within the division.
3. Best won-lost-tied percentage in games played within the conference.
4. Best won-lost-tied percentage in common games, if applicable.
5. Best net points in division games.
6. Best net points in all games.
7. Strength of schedule.
8. Best net touchdowns in all games.
9. Coin toss.

Three or More Clubs

(Note: If two clubs remain tied after a third club is eliminated during any step, tie-breaker reverts to step 1 of two-club format.)

1. Head-to-head (best won-lost-tied percentage in games among the clubs).
2. Best won-lost-tied percentage in games played within the division.
3. Best won-lost-tied percentage in games played within the conference.
4. Best won-lost-tied percentage in common games.
5. Best net points in division games.
6. Best net points in all games.
7. Strength of schedule.
8. Best net touchdowns in all games.
9. Coin toss.

To Break a Tie for the Wild Card Team

If it is necessary to break ties to determine the two Wild Card clubs from each conference, the following steps will be taken.

1. If the tied clubs are from the same division, apply division tie-breaker.
2. If the tied clubs are from different divisions, apply the following steps.

Two Clubs

1. Head-to-head, if applicable.
2. Best won-lost-tied percentage in games played within the conference.
3. Best won-lost-tied percentage in common games, minimum of four.
4. Best average net points in conference games.
5. Best net points in all games.
6. Strength of schedule.
7. Best net touchdowns in all games.
8. Coin toss.

Three or More Clubs

(Note: If two clubs remain tied after other clubs are eliminated, tie-breaker reverts to step 1 of applicable two-club format.)

1. Head-to-head sweep. (Applicable only if one club has defeated each of the others, or if one club has lost to each of the others.)
2. Best won-lost-tied percentage in games played within the conference.
3. Best won-lost-tied percentage in common games, minimum of four.
4. Best average net points in conference games.
5. Best net points in all games.
6. Strength of schedule.
7. Best net touchdowns in all games.
8. Coin toss.

Tie-Breaking Procedure for Selection Meeting

If two or more clubs are tied for selection order, the conventional strength of schedule tie-breaker will be applied, subject to the following exceptions for playoff teams.

1. The Super Bowl winner will be last and the Super Bowl loser will be next-to-last.
2. Any non-Super Bowl playoff team involved in a tie moves down in drafting priority as follows:
   A. Participation by a club in the playoffs without a victory adds one-half victory to the club's regular season won-lost-tied record.
   B. For each victory in the playoffs, one full victory will be added to the club's regular season won-lost-tied record.
3. Clubs with the best won-lost-tied records after these steps are applied will drop to their appropriate spots at the bottom of the tied segment. In no case will the above process move a club lower than the segment in which it was initially tied.

FIRST WEEK SUMMARY

While the National Football League was kicking off its sixty-third season, the Philadelphia Eagles and Pittsburgh Steelers were celebrating golden anniversaries with mixed results. Terry Bradshaw's three touchdown passes enabled the Steelers to beat the Cowboys 36-28 on Monday night. The loss ended Dallas's NFL-record 17 straight opening day victories. The Eagles were shown little respect by division rival Washington, which rallied from a 20-point deficit to pull out a 37-34 overtime win. Comeback victories were also registered by Green Bay, Atlanta, and the Los Angeles Raiders. In what Packer coach Bart Starr described as "the greatest comeback I've ever seen," quarterback Lynn Dickey fired a pair of fourth-quarter touchdown passes just 17 seconds apart to erase a 23-0 deficit and help Green Bay defeat the Los Angeles Rams 35-23. In San Francisco, the Super Bowl XVI champion 49ers succumbed to the Raiders 23-17. Rookie running back Marcus Allen was outstanding in his NFL debut, rushing for 116 yards. Mick Luckhurst's 29-yard field goal with 58 seconds left lifted the Falcons over the Giants 16-14. Miami ended a five-year drought at the hands of the New York Jets by winning 45-28. St. Louis was victorious on opening day for the first time since 1976, defeating New Orleans 21-7. Ken Stabler opened at quarterback for the Saints—the first quarterback other than Archie Manning to start for New Orleans on opening day in the last 12 years. Minnesota christened its new home, the Metrodome, with a 17-10 win over Tampa Bay. Quarterbacks proved to be the difference in Cincinnati and Buffalo. Ken Anderson passed for 354 yards and two touchdowns in the Bengals' win over the Oilers and two scoring passes by Joe Ferguson helped the Bills defeat Kansas City 14-9. Billy Sims returned from a brief holdout to spark Detroit over Chicago. Mike Pruitt ran for 136 yards and two scores to lead Cleveland over Seattle 21-7. Three field goals by Rolf Benirschke were all San Diego needed in a 23-3 win over Denver. Ron Meyer's head coaching debut in New England was successful as the Patriots snapped a nine-game losing streak by defeating Baltimore 24-13.

Following John Riggins' two-yard touchdown run, Moseley connected from 30 and 48 yards, the latter as regulation time expired After winning the overtime coin toss, Theismann had completions of 28 and 27 yards to Art Monk (eight receptions, 134 yards, one touchdown), which set up Moseley's winning field goal.

MONDAY, SEPTEMBER 13

Pittsburgh 36, Dallas 28—At Texas Stadium, attendance 63,431. Terry Bradshaw (who completed 17 of 28 passes for 246 yards) threw three touchdown passes as the Steelers ended the Cowboys' NFL record of 17 consecutive opening-day victories. Following first-half scoring passes from Bradshaw to John Stallworth and Jim Smith, Pittsburgh broke the game open in the third period capitalizing on a three-yard Dallas punt and two interceptions to score 17 straight points. Franco Harris, who rushed for 103 yards, and Stallworth, who had seven catches for 137 yards, helped balance the Steelers' attack. The win overshadowed the four-touchdown passing performance of Dallas quarterback Danny White, who suffered his first loss in Texas Stadium as Dallas' starting quarterback.

SECOND WEEK SUMMARY

Seven teams—four AFC and three NFC—cruised through week two with unblemished records but everyone wondered when they would be able to extend those marks as the NFL players voted to strike. The work stoppage was the first in regular-season history Terry Bradshaw's two-yard scoring pass to John Stallworth, 1:08 into overtime, gave Pittsburgh a 26-20 win over Cincinnati. The Steelers' victory was their first over the Bengals since 1979. The Bills beat the Vikings 23-22 with 2:48 left on Joe Ferguson's 11-yard touchdown pass to Jerry Butler and Nick Mike-Mayer's extra point. The Dolphins struggled past the Colts 24-20 while the Raiders blew by the Falcons 38-14 Kickers grabbed the spotlight in two contests. In Tampa, Washington's Mark Moseley showed that not even a tropical monsoon could hinder his accuracy as he kicked three field goals in the Redskins 21-13 win over the Buccaneers. Meanwhile, the Lions' Bob Thomas connected on four field goals and got help from running back Billy Sims, who gained over 100 yards both rushing and receiving, enabling Detroit to down the Rams 19-14 At the Meadowlands, the Giants opened a 19-7 advantage over the Packers, but James Lofton's 83-yard end-around touchdown run sparked Green Bay's second-half comeback. Denver was victorious when free agent Rich Karlis hit an 18-yard field goal on the game's final play. NFC East rivals Dallas and Philadelphia rebounded from opening-day losses. The Cowboys scored 17 unanswered points in downing St. Louis 24-7 while the Eagles scored a 24-21 win on Leroy Harris' two-yard run with 22 seconds left. It was the Eagles first win in Cleveland since 1960. Powered by Earl Campbell's (142 yards rushing) 12-yard scoring run with 53 seconds remaining, the Oilers outlasted the Seahawks 23-21. The Jets dominated the Patriots in their 31-7 victory but lost Sack Exchange leader Joe Klecko with a knee injury. San Diego and Kansas City played a strange game at Arrowhead Stadium. For the second week in a row the Chargers' defense didn't allow a touchdown and the Chiefs' offense didn't score one. Kansas City was victorious anyway thanks to four Nick Lowery field goals and a blocked punt recovered in the end zone.

THURSDAY, SEPTEMBER 16

Buffalo 23, Minnesota 22—At Rich Stadium, attendance 77,753. Buffalo spotted Minnesota a 19-0 second-quarter lead but rebounded on scoring passes from Ferguson to Frank Lewis (six yards) and Butler (four), and on Mike-Mayer's 21-yard field goal. Butler caught seven passes for 111 yards; Lewis four for 82. Ferguson, who completed 25 of 45 passes for 330 yards, directed the 451-yard attack

Thomas' first three field goals, plus Gary Danielson's two-yard scoring pass to tight end David Hill, gave Detroit a 16-0 third-quarter lead. Vince Ferragamo relieved quarterback Bert Jones (who left the game with a pulled muscle in the third period) and rallied Los Angeles to within 19-14, but Detroit's Doug English recovered a Ferragamo fumble on the Lions' 27 yard line to preserve the win

THIRD WEEK SUMMARY

Fifty-seven days after NFL players voted to strike, negotiators for the Players Association and the NFL Management Council reached accord on a new collective bargaining agreement on November 16, thus salvaging a nine-game regular season schedule. Play resumed Sunday, November 21. Surprisingly, many players reappeared after the eight-week hiatus in mid-season form. One of those was San Francisco quarterback Joe Montana who directed the 49ers to their first win of the season. He threw for a team-record 408 yards and three touchdowns in a 31-20 win over St. Louis. The New York Jets trounced Baltimore 37-0 as Freeman McNeil became the first Jets player to rush for over 100 yards (123) in three consecutive games. Jim Zorn's 34-yard touchdown pass to Steve Largent with 49 seconds left gave the Seahawks a 17-10 victory over the Broncos. The win was the first for interim head coach Mike McCormack. Tampa Bay outgained Dallas 382 to 185 but Robert Newhouse came off the bench to score the winning touchdown (a three-yard run) on his only carry of the day. The Bears dropped Detroit from the unbeaten ranks 20-17, giving Mike Ditka his first NFL coaching victory. Five teams maintained perfect records: the Raiders, Dolphins, and Steelers in the AFC; the Packers and Redskins in the NFC—but it wasn't easy. The Los Angeles Raiders fell behind 24-0 to San Diego but a pair of Marcus Allen touchdowns and Frank Hawkins' one-yard run increased the Raiders Monday night mark to 19-2-1 (88.6%). Miami's defense (six interceptions) and three Uwe von Schamann field goals were all the Dolphins needed in a 9-7 triumph over the Bills. Terry Bradshaw completed only 16 of 40 passes but three completions went for touchdowns in Pittsburgh's 24-10 win over Houston. Green Bay quarterbacks survived eight sacks for 62 yards in losses to guide the Packers over the Vikings 26-7. Washington opened a 21-3 lead and held off the rallying New York Giants 27-17.

SUNDAY, NOVEMBER 21

New York Jets 37, Baltimore 0 — At Shea Stadium, attendance 46,970. FOURTH WEEK SUMMARY

Fourth week results centered around this season's unfolding rags-to-riches story—the New Orleans Saints. After winning two of their first three games, the Saints showed just how serious they were by knocking off defending NFL champion San Francisco 23-20. New Orleans carried a 23-6 lead into the final quarter and weathered a furious rally by the 49ers. Jeff Groth's recovery of an onside kick with five seconds remaining sealed the victory. Seattle shutout Pittsburgh 16-0 to even their record at 2-2 and give interim head coach Mike McCormack his second straight victory since replacing Jack Patera on October 13. The Raiders, Dolphins, and Packers lost for the first time. The Bengals' defense bottled up the Raiders' rushing attack (33 total yards) and held rookie sensation Marcus Allen to zero net yards. Cincinnati also intercepted four Jim Plunkett passes in the 31-17 win. Meanwhile, Tampa Bay won for the first time in 1982 by holding off cross-state rival Miami 23-17. The Packers dropped a 15-12 decision to the Jets after holding a 13-6 halftime edge. Lawrence Taylor's fourth quarter 97-yard interception return for a score brought the Giants their first 1982 victory, 13-6 over the Lions on Thanksgiving Day. LeRoy Irvin's fourth punt return touchdown of his career helped the Rams to their first win, a 20-14 decision over the Chiefs. That left only one undefeated team, the Washington Redskins, who dropped Philadelphia 13-9 in the rain at RFK Stadium. Buffalo allowed only 88 yards in shutting out Baltimore 20-0 while Minnesota dominated Chicago 35-7 behind Tommy Kramer's career-high five touchdown passes. The Chargers slipped by the Broncos 30-20 as Dan Fouts threw for 337 yards to set an NFL record for most 300-yard passing games in a career (27).

EIGHTH WEEK SUMMARY

Eight more teams celebrated Super Bowl Tournament berths while 12 teams overall remained in contention for Super Bowl XVII. Added to last week's four postseason finalists were the Bengals, Dolphins, Jets, Chargers, Steelers, Packers, Cardinals, and Vikings. Cincinnati and the New York Jets both earned postseason spots with a 24-10 win over Seattle and a 42-14 win over Minnesota, respectively. The Vikings made the playoff picture anyway based on a better conference record among NFC rivals. San Diego made the playoffs for the fourth consecutive season by beating Baltimore 44-26 on the strength of Dan Fouts' five touchdown passes. Pittsburgh ended a two-year absence from the playoffs by defeating New England 37-14. Green Bay defeated Atlanta 38-7 and qualified for the playoffs for the first time since 1972. Neil Lomax's eight-yard scoring toss to Roy Green with 27 seconds left to play led the Cardinals over the Giants 27-24 and helped St. Louis into the playoffs for the first time since 1975. The Bears remained in contention for a postseason spot by outlasting the Rams 34-26. Walter Payton gained 104 yards rushing to become the fourth NFL player to rush for over 10,000 yards in a career. Not to be outdone, the Rams' Vince Ferragamo completed 30 of 46 passes for 509 yards — the second-highest passing total in NFL history. Bill Capece's last-minute 27-yard field goal gave Tampa Bay a 23-21 victory over Detroit and kept the Buccaneers in the battle for one of the two remaining NFC berths. The Raiders retained sole possession of first place in the AFC by defeating the Broncos 27-10 while the Redskins gained sole possession of the top spot in the NFC with a little help from the Eagles. Washington discarded New Orleans 27-10 and Dallas fell to Philadelphia 24-20 to end the Cowboys' six-game unbeaten streak. The AFC edged the NFC 15-14-1 in the 30-game interconference series which was reduced from 56 games by the strike.

NINTH WEEK SUMMARY

Cleveland, Detroit, New England, and Tampa Bay rounded out the 16-team Super Bowl Tournament field in the final week of rescheduled games in the strike-shortened season. For the second week in a row, the toe of Tampa Bay's Bill Capece was the deciding factor. His 33-yard field goal, 3:14 into overtime, gave the Buccaneers a 26-23 win over Chicago and their third playoff appearance in the last four years. Steve Grogan's three touchdown passes helped the Patriots lock up a postseason berth—their first since 1978—and a 30-19 victory over the Bills. Detroit defeated NFC rival Green Bay 27-24 to round out the NFC Tournament field. Despite a 37-21 loss to Pittsburgh, Cleveland clinched the last AFC spot due to Buffalo's loss to New England. The Raiders continued their mastery over the Chargers with a 41-34 victory that assured Los Angeles the home field advantage throughout the playoffs. Joe Theismann fired three touchdown passes as the Redskins completed the season with a 28-0 shutout of the Cardinals. The victory helped the Redskins to their best record since 1942. Mark Moseley had his NFL-record streak of 23 consecutive field goals come to an end with a 40-yard miss, but his 20 of 21 this season, for 95.2 percent, set an NFL record. Cincinnati's Ken Anderson established two NFL marks in a 35-27 win over Houston. Anderson completed 27 of 31 passes, including 20 in a row, breaking Steve DeBerg's two-week old record. His season completion percentage of 70.55 was also a record. Dallas suffered their third loss of the season, 31-27 to Minnesota, but Tony Dorsett scored on an NFL-record 99-yard run from scrimmage. It was only the second loss for the Cowboys in which Dorsett had rushed for over 100 yards. The Rams staged a furious comeback to defeat the 49ers 21-20 and eliminate the defending NFL champions from the playoffs. Joe Danelo's 25-yard field goal with two seconds left gave the Giants a 26-24 win over the Eagles and a victorious sendoff to coach Ray Perkins, who was named to replace Bear Bryant as head coach at Alabama.

Following that play, the Jets drove 85 yards in 11 plays to take a 17-14 lead. McNeil's 202 yards fell four yards short of Keith Lincoln's NFL postseason record of 206. The Jets' Richard Todd enjoyed an outstanding game as he completed 20 of 28 passes for 269 yards and one touchdown. The Jets' Darrol Ray set an NFL playoff record for the longest interception return with a 98-yard touchdown, breaking the previous mark of 88 yards set by Walt Sumner of Cleveland in 1964.

THIRTEENTH WEEK

SUPER BOWL XVII
SUNDAY, JANUARY 30, 1983
PASADENA, CALIFORNIA

Washington 27, Miami 17 — At Rose Bowl, attendance 103,667. Fullback John Riggins' Super Bowl record 166 yards on 38 carries sparked Washington to a 27-17 victory over AFC champion Miami. It was Riggins' fourth straight 100-yard rushing game during the playoffs, also a record. The win marked Washington's first NFL title since 1942, and was only the second time in Super Bowl history NFC teams scored consecutive wins (Green Bay did it in Super Bowls I and II and San Francisco won Super Bowl XVI). The Redskins, under second-year head coach Joe Gibbs, presented a balanced offense that accounted for 400 total yards (a Super Bowl record 276 yards rushing and 124 passing), second in Super Bowl history to the 429 yards by Oakland in Super Bowl XI. The Dolphins built a 17-10 halftime lead on a 76-yard touchdown pass from quarterback David Woodley to wide receiver Jimmy Cefalo 6:49 into the first period, a 20-yard field goal by Uwe von Schamann with 6:00 left in the half, and a Super Bowl record 98-yard kickoff return by Fulton Walker with 1:38 remaining. Washington had tied the score at 10-10 with 1:51 left before halftime on a four-yard touchdown pass from Joe Theismann to Alvin Garrett. Mark Moseley started the Redskins' scoring with a 31-yard field goal late in the first period, and added a 20-yard field goal midway through the third period to cut the Dolphins' lead to 17-14. Riggins, who was voted the game's most valuable player, gave Washington its first lead of the game with 10:01 left when he ran 43 yards off left tackle for a touchdown on a fourth-and-one play. Wide receiver Charlie Brown caught a six-yard scoring pass from Theismann with 1:55 left to complete the scoring. The Dolphins managed only 176 yards (142 in the first half). Theismann completed 15 of 23 for 143 yards, with two touchdowns, and two interceptions. For Miami, Woodley was 4 of 14 for 97 yards, with one score, and one interception.

NFC 20, AFC 19 — At Aloha Stadium, attendance 47,201. Danny White threw an 11-yard touchdown pass to John Jefferson with 35 seconds remaining to give the NFC a 20-19 victory over the AFC. White, who completed 14 of 26 passes for 162 yards, kept the winning 65-yard drive alive with a 14-yard completion to Jefferson on a fourth-and-seven play at the AFC 25 yard line. The AFC was ahead 12-10 at halftime and increased the lead to 19-10 in the third period when Marcus Allen scored on a one-yard run. Dan Fouts, who attempted 30 passes, set Pro Bowl records for most completions (17) and yards (274). John Stallworth was the AFC's leading receiver with seven catches for 67 yards. William Andrews topped the NFC with five receptions for 48 yards. Fouts and Jefferson were voted co-players of the game.

Look for in 1983

Things that could happen in 1983:

• Franco Harris (Pittsburgh), with his next touchdown, will move into sole possession of fourth place in total touchdowns scored. Entering 1983, Harris shares fourth place with Jim Taylor (93 each). The top three are Jim Brown (126), Lenny Moore (113), and Don Hutson (105).

• Harris and Walter Payton (Chicago) could pass O.J. Simpson, the NFL's second-leading rusher. Simpson gained 11,236 yards in his career. Harris (10,943) needs 294 yards and Payton (10,204) needs 1,033 yards to pass Simpson. Jim Brown is the all-time leader with 12,312 yards.

• Harris already has carried the ball more times (2,602) than any player in league history. Payton (2,352), currently in fourth position, could move into second this season. He needs only eight carries to pass Brown and 53 to pass Simpson.

• Should Payton gain 1,000 yards rushing in 1983, it would mark his seventh such season and tie the NFL record shared by Brown and Harris. Also, Harris could get 1,000 yards for a record eighth time.

• Earl Campbell (Houston) needs five yards rushing to become the eleventh player to reach 7,000 yards for a career.

• Ken Anderson (Cincinnati) led the league in passing in both 1981 and 1982. No player in the history of the NFL has led in passing in three successive seasons. Anderson, in fact, is the only player who has led for two straight years on two separate occasions, having also done it in 1974 and 1975.

• Anderson (28,057 yards), Terry Bradshaw of Pittsburgh (27,912), and Dan Fouts of San Diego (27,139) are all within striking distance of 30,000 career yards passing—a plateau that has been reached previously by only seven quarterbacks.

• Fouts, who had successive 400-yard games last December, has passed for 400 yards in a game three times in his career. The league record is five such games, accomplished by Sonny Jurgensen.

• Jan Stenerud (Green Bay) needs 18 field goals to match George Blanda's career record of 335. Blanda attempted 638 field goals, while Stenerud has tried only 483. Stenerud, with 1,408 career points, needs just 32 more to pass Jim Turner and move into second position on the all-time scoring list. Blanda is at the head of that list, too, with 2,002 points.

• Rolf Benirschke (San Diego) needs two field goals to reach 100 for his career. At that point, he will likely become the all-time NFL leader in field goal percentage among players who have kicked at least 100 field goals. Entering the 1983 season, Benirschke had made 98 of 133 attempts, a percentage of 73.7. The leader going into the season is Toni Fritsch (68.0).

• Harold Carmichael (Philadelphia) needs 49 receptions to reach 600 for his career. Only three players—Charley Taylor (649), Don Maynard (633), and Raymond Berry (631)—have reached that milestone.

• Mike Fuller (Cincinnati) has 252 career punt returns, six short of Emlen Tunnell's league record of 258.

• Rick Upchurch (Denver), who already has the league record for punt return yardage (2,956), has some other accomplishments within reach. His 244 career punt returns, fourth on the all-time list, are 14 short of Tunnell's record; his total of eight touchdowns on punt returns gives him a share of the NFL record with Jack Christiansen; and he has led the league in punt return average three times, tying the record originally set by Les (Speedy) Duncan.

• Jim Hart (St. Louis), by appearing in one more game with the Cardinals, would be in his eighteenth season with one team—one short of the NFL record held by Jim Marshall, who played with the Minnesota Vikings for 19 seasons. Besides Hart, five other players have seen action for the same team for 17 seasons: John Brodie, San Francisco; Johnny Unitas, Baltimore; Lou Groza, Cleveland; Jim Bakken, St. Louis; and Mick Tingelhoff, Minnesota.

• Everson Walls (Dallas) has led the NFL in interceptions in each of his first two seasons. He is the only player in the history of the league to have accomplished that feat. If Walls leads again this season, he would also become the first player to lead the league in interceptions for three straight seasons. Only one other player, Philadelphia's Bill Bradley in 1971 and 1972, led in this category two years in a row.

COACHING STAFF

Head Coach, Marion Campbell

Pro Career: Campbell was named head coach of the Eagles on January 10, 1983 after six seasons as the club's defensive coordinator. Campbell's first association with the Eagles came in 1956 when, as a defensive lineman, he was traded to Philadelphia by San Francisco. He was the 49ers' fourth-round draft choice in 1951 but spent three years in the Army before he joined the 49ers. During his six-year playing career with the Eagles, Campbell played defensive tackle on the Eagles' 1960 NFL Championship team and played in the 1960 and 1961 Pro Bowls. His pro coaching career began in 1962 as an assistant with the Boston Patriots. Two years later he moved into the NFL coaching ranks where he developed outstanding defensive lines at Minnesota (1964-66) and Los Angeles (1967-68). He joined Atlanta in 1969 and was the Falcons' head coach from November of 1974 to October of 1976. His head coaching record was 6-19, including a 4-10 mark in 1975, his only full season as a head coach. He was released by the Falcons after nine games in 1976 and joined the Eagles in 1977.

Background: At the University of Georgia, where he played tackle, he was an All-Southeastern Conference selection three times and the team's most valuable player his senior year.

NFL Digest of Rules

This Digest of Rules of the National Football League has been prepared to aid players, fans, and members of the press, radio, and television media in their understanding of the game.

It is not meant to be a substitute for the official rule book. In any case of conflict between these explanations and the official rules, the rules always have precedence.

In order to make it easier to coordinate the information in this digest the topics discussed generally follow the order of the rule book.

Officials' Jurisdictions, Positions, and Duties

Referee—General oversight and control of game. Gives signals for all fouls and is final authority for rule interpretations. Takes a position in backfield 10 to 12 yards behind line of scrimmage, favors right side (if quarterback is right-handed passer). Determines legality of snap, observes deep back(s) for legal motion. On running play, observes quarterback during and after handoff, remains with him until action has cleared away, then proceeds downfield, checking on runner and contact behind him. When runner is downed, Referee determines forward progress from wing official and if necessary, adjusts final position of ball.

On pass plays, drops back as quarterback begins to fade back, picks up legality of blocks by near linemen. Changes to complete concentration on quarterback as defenders approach. Primarily responsible to rule on possible roughing action on passer and if ball becomes loose, rules whether ball is free on a fumble or dead on an incomplete pass.

During kicking situations, Referee has primary responsibility to rule on kicker's actions and whether or not any subsequent contact by a defender is legal.

Umpire—Primary responsibility to rule on players' equipment, as well as their conduct and actions on scrimmage line. Lines up approximately four to five yards downfield, varying position from in front of weakside tackle to strongside guard. Looks for possible false start by offensive linemen. Observes legality of contact by both offensive linemen while blocking and by defensive players while they attempt to ward off blockers. Is prepared to call rule infractions if they occur on offense or defense. Moves forward to line of scrimmage when pass play develops in order to insure that interior linemen do not move illegally downfield. If offensive linemen indicate screen pass is to be attempted, Umpire shifts his attention toward screen side, picks up potential receiver in order to insure that he will legally be permitted to run his pattern and continues to rule on action of blockers. Umpire is to assist in ruling on incomplete or trapped passes when ball is thrown overhead or short.

Head Linesman—Primarily responsible for ruling on offside, encroachment, and actions pertaining to scrimmage line prior to or at snap. Keys on closest setback on his side of the field. On pass plays, Linesman is responsible to clear this receiver approximately seven yards downfield as he moves to a point five yards beyond the line. Linesman's secondary responsibility is to rule on any illegal action taken by defenders on any delay receiver moving downfield. Has full responsibility for ruling on sideline plays on his side, e.g., pass receiver or runner in or out of bounds. Together with Referee, Linesman is responsible for keeping track of number of downs and is in charge of mechanics of his chain crew in connection with its duties.

Linesman must be prepared to assist in determining forward progress by a runner on play directed toward middle or into his side zone. He, in turn, is to signal Referee or Umpire what forward point ball has reached. Linesman is also responsible to rule on legality of action involving any receiver who approaches his side zone. He is to call pass interference when the infraction occurs and is to rule on legality of blockers and defenders on plays involving ball carriers, whether it is entirely a running play, a combination pass and run, or a play involving a kick.

Line Judge—Straddles line of scrimmage on side of field opposite Linesman. Keeps time of game as a backup for clock operator. Along with Linesman is responsible for offside, encroachment, and actions pertaining to scrimmage line prior to or at snap. Line Judge keys on closest setback on his side of field. Line Judge is to observe his receiver until he moves at least seven yards downfield, Judge then moves toward backfield side, being especially alert to rule on any back in motion and on flight of ball when pass is made (he must rule whether forward or backward). Line Judge has primary responsibility to rule whether or not passer is behind or beyond line of scrimmage when pass is made. He also assists in observing actions by blockers and defenders who are on his side of field. After pass is thrown, Line Judge directs attention toward activities that occur in back of Umpire. During punting situations, Line Judge remains at line of scrimmage to be sure that only the end men move downfield until kick has been made. He also rules whether or not the kick crossed line and then observes action by members of the kicking team who are moving downfield to cover the kick.

Back Judge—Operates on same side of field as Line Judge, 17 yards deep. Keys on wide receiver on his side. Concentrates on path of end or back, observing legality of his potential block(s) or of actions taken against him. Is prepared to rule from deep position on holding or illegal use of hands by end or back or on defensive infractions committed by player guarding him. Has primary responsibility to make decisions involving sideline on his side of field, e.g., pass receiver or runner in or out of bounds.

Back Judge makes decisions involving catching, recovery, or illegal touching of a loose ball beyond line of scrimmage; rules on plays involving pass receiver, including legality of catch or pass interference; assists in covering actions of runner, including blocks by teammates and that of defenders; calls clipping on punt returns; and, together with Field Judge, rules whether or not field goal attempts are successful.

Side Judge—Operates on same side of field as Linesman, 17 yards deep. Keys on wide receiver on his side. Concentrates on path of end or back, observing legality of his potential block(s) or of actions taken against him. Is prepared to rule from deep position on holding or illegal use of hands by end or back or on defensive infractions committed by player guarding him. Has primary responsibility to make decisions involving sideline on his side of field, e.g., pass receiver or runner in or out of bounds.

Side Judge makes decisions involving catching, recovery, or illegal touching of a loose ball beyond line of scrimmage; rules on plays involving pass receiver, including legality of catch or pass interference; assists in covering actions of runner, including blocks by teammates and that of defenders; and calls clipping on punt returns.

Field Judge—Takes a position 25 yards downfield. In general, favors the tight end's side of field. Keys on tight end, concentrates on his path and observes legality of tight end's potential block(s) or of actions taken against him. Is prepared to rule from deep position on holding or illegal use of hands by end or back or on defensive infractions committed by player guarding him.

Field Judge times interval between plays on 30-second clock plus intermission between two periods of each half; makes decisions involving catching, recovery, or illegal touching of a loose ball beyond line of scrimmage; is responsible to rule on plays involving end line, calls pass interference, fair catch infractions, and clipping on kick returns; and, together with Back Judge, rules whether or not field goals and conversions are successful.

Touchdown

1. When Referee determines a palpably unfair act deprived a team of a touchdown. (Example: Player comes off bench and tackles runner apparently en route to touchdown.)

Field

1. Sidelines and end lines are out of bounds. The goal line is actually in the end zone. A player with the ball in his possession scores when the ball is on, above, or over the goal line.
2. The field is rimmed by a white border, a minimum six feet wide, along the sidelines. All of this is out of bounds.
3. The hashmarks (inbound lines) are 70 feet, 9 inches from each sideline.
4. Goal posts must be single-standard type, offset from the end line and painted bright gold. The goal posts must be 18 feet, 6 inches wide and the top face of the crossbar must be 10 feet above the ground. Vertical posts extend at least 30 feet above the crossbar. A ribbon [illegible] 42 inches long is to be attached to the top of each post. The [illegible] the plane extending indefinitely above the crossbar [illegible] outer edges of the posts.

5. The field is 360 feet long and 160 feet wide. The end zones are 30 feet deep. The line used in try-for-point plays is two yards out from the goal line.
6. Chain crew members and ball boys must be uniformly identifiable.
7. All clubs must use standardized sideline markers. Pylons must be used for goal line and end line markings.
8. End zone markings and club identification at 50 yard line must be approved by the Commissioner to avoid any confusion as to delineation of goal lines, sidelines, and end lines.

Ball

1. The home club must have 24 balls available for testing by the Referee one hour before game time. In case of bad weather, a playable ball is to be substituted on request of the offensive team captain.

Coin Toss

1. The toss of coin will take place within three minutes of kickoff in center of field. The toss will be called by the visiting captain. The winner may choose one of two privileges and the loser gets the other:
   (a) Receive or kick
   (b) Goal his team will defend
2. Immediately prior to the start of the second half, the captains of both teams must inform the officials of their respective choices. The loser of the original coin toss gets first choice.

Timing

1. The stadium clock is official. In case it stops or is operating incorrectly, the Line Judge takes over the official timing on the field.
2. Each period is 15 minutes. The intermission between the periods is two minutes. Halftime is 15 minutes, unless otherwise specified.
3. On charged team time outs, the Field Judge starts watch and blows whistle after 1 minute 30 seconds. However, Referee may allow two minutes for injured player and three minutes for equipment repair.
4. Each team is allowed three time outs each half.
5. Offensive team has 30 seconds to put the ball in play. The time is displayed on two 30-second clocks, which are visible to the players, officials, and fans. Field Judge is to call a delay of game penalty (five yards) when the time limit is exceeded. In case 30-second clocks are not operating, Field Judge takes over the official timing on the field.
6. Clock will start running when ball is snapped following all changes of team possession.

Sudden Death

1. The sudden death system of determining the winner shall prevail when score is tied at the end of the regulation playing time of all NFL games. The team scoring first during overtime play shall be the winner and the game automatically ends upon any score (by safety, field goal, or touchdown) or when a score is awarded by Referee for a palpably unfair act.
2. At the end of regulation time the Referee will immediately toss coin at center of field in accordance with rules pertaining to the usual pregame toss. The captain of the visiting team will call the toss.
3. Following a three-minute intermission after the end of the regulation game, play will be continued in 15-minute periods or until there is a score. There is a two-minute intermission between subsequent periods. The teams change goals at the start of each period. Each team has three time outs and general provisions for play in the last two-minutes of a half shall prevail. Disqualified players are not allowed to return.
   Exception: In preseason and regular season games there shall be a maximum of 15 minutes of sudden death with two time outs instead of three. General provisions for play in the last two minutes of a half will be in force.

Timing in Final Two Minutes of Each Half

1. On kickoff, clock does not start until the ball has been legally touched by player of either team in the field of play. (In all other cases, clock starts with kickoff.)
2. A team cannot "buy" an excess time out for a penalty. However, a fourth time out is allowed without penalty for an injured player, who must be removed immediately. A fifth time out or more is allowed for an injury and a five-yard penalty is assessed if the clock was running. Additionally, if the clock was running and the score is tied or the team in possession is losing, the ball cannot be put in play for at least 10 seconds on the fourth or more time out. The half or game can end while those 10 seconds are run off on the clock.
3. If the defensive team is behind in the score and commits a foul when it has no time outs left in the final 30 seconds of either half, the offensive team can decline the penalty for the foul and have the time on the clock expire.

Try-for-Point

1. After a touchdown, the scoring team is allowed a try-for-point during one scrimmage down. The ball may be spotted anywhere between the inbounds lines, two or more yards from the goal line. The successful conversion counts one point, whether by run, kick, or pass.
2. The defensive team never can score on a try-for-point. As soon as defense gets possession, or kick is blocked, ball is dead.
3. Any distance penalty for fouls committed by the defense that prevent the try from being attempted can be enforced on the succeeding kickoff. Any foul committed on a successful try will result in a distance penalty being assessed on the ensuing kickoff.

Players-Substitutions

1. Each team is permitted 11 men on the field at the snap.
2. Unlimited substitution is permitted. However, players may enter the field only when the ball is dead. Players who have been substituted for are not permitted to linger on the field. Such lingering will be interpreted as unsportsmanlike conduct.
3. Players leaving the game must be out of bounds on their own side, clearing the field between the end lines, before a snap or free kick. If player crosses end line leaving field, it is delay of game (five-yard penalty).

Kickoff

1. The kickoff shall be from the kicking team's 35 yard line at the start of each half and after a field goal and try-for-point. A kickoff is one type of free kick.
2. Either a one-, two-, or three-inch tee may be used (no tee permitted for field goal or try-for-point plays). The ball is put in play by a placekick or dropkick.
3. If kickoff clears the opponent's goal posts it is not a field goal.
4. A kickoff is illegal unless it travels 10 yards OR is touched by the receiving team. Once the ball is touched by the receiving team it is a free ball. Receivers may recover and advance. Kicking team may recover but NOT advance UNLESS receiver had possession and lost the ball.
5. When a kickoff goes out of bounds between the goal lines without being touched by the receiving team, it must be kicked again. There is a five-yard penalty for a short kick or an out-of-bounds kick.
6. When a kickoff goes out of bounds between the goal lines and is touched last by receiving team, it is receiver's ball at out-of-bounds spot.

Free Kick

1. In addition to a kickoff, the other free kicks are a kick after a safety and a kick after a fair catch. In both cases, a dropkick, placekick, or punt may be used (a punt may not be used on a kickoff.)
2. On free kick after a fair catch, captain of receiving team has the option to put ball in play by punt, dropkick, or placekick without a tee, or by snap. If the placekick or dropkick goes between the uprights a field goal is scored.
3. On a free kick after a safety, the team scored upon puts ball in play by a punt, dropkick, or placekick without tee. No score can be made on a free kick following a safety, even if a series of penalties place team in position. (A field goal can be scored only on a play from scrimmage or a free kick after a fair catch.)

Field Goal

1. All field goals attempted and missed from scrimmage line beyond the 20 yard line will result in the defensive team taking possession of the ball at the scrimmage line. On any field goal attempted and missed from scrimmage line inside the 20 yard line, ball will revert to defensive team at the 20 yard line.

Safety

1. The important factor in a safety is impetus. Two points are scored for the opposing team when the ball is dead on or behind a team's own goal line if the impetus came from a player on that team.

Examples of Safety:

(a) Blocked punt goes out of kicking team's end zone. Impetus was provided by punting team. The block only changes direction of ball, not impetus.
(b) Ball carrier retreats from field of play into his own end zone and is downed. Ball carrier provides impetus.
(c) Offensive team commits a foul and spot of enforcement is behind its own goal line.
(d) Player on receiving team muffs punt and, trying to get ball, forces or illegally kicks it into end zone where he or a teammate recovers. He has given new impetus to the ball.

Examples of Non-safety:

(a) Player intercepts a pass inside his own 5 yard line and his momentum carries him into his own end zone. Ball is put in play at spot of interception.

(b) Player intercepts a pass in his own end zone and is downed. Impetus came from passing team, not from defense. (Touchback)

(c) Player passes from behind his own goal line. Opponent bats down ball in end zone. (Incomplete pass)

Measuring

1. The forward point of the ball is used when measuring.

Position of Players at Snap

1. Offensive team must have at least seven players on line.
2. Offensive players, not on line, must be at least one yard back at snap. (**Exception:** player who takes snap.)
3. No interior lineman may move after taking or simulating a three-point stance.
4. No player of either team may invade neutral zone before snap.
5. No player of offensive team may charge or move, after assuming set position, in such manner as to lead defense to believe snap has started.
6. If a player changes his eligibility, the Referee must alert the defensive captain after player has reported to him.
7. All players of offensive team must be stationary at snap, except one back who may be in motion parallel to scrimmage line or backward (not forward).
8. After a shift or huddle all players on offensive team must come to an absolute stop for at least one second with no movement of hands, feet, head, or swaying of body.
9. Linemen may lock legs only with the snapper.
10. Quarterbacks can be called for a false start penalty (five yards) if their actions are judged to be an obvious attempt to draw an opponent offside.

Use of Hands, Arms, and Body

1. No player on offense may assist a runner except by blocking for him. There shall be no interlocking interference.
2. A runner may ward off opponents with his hands and arms but no other player on offense may use hands or arms to obstruct an opponent by grasping with hands, pushing, or encircling any part of his body during a block.
3. Pass blocking is the obstruction of an opponent by use of that part of the body above the knees. During a legal block, hands (open or closed) must be inside the blocker's elbows and can be thrust forward to contact an opponent as long as the contact is inside the frame. Hands cannot be thrust forward above the frame to contact an opponent on the neck, face, or head. (**Note:** The frame is defined as that part of the opponent's body below the neck that is presented to the blocker.) Blocker cannot use his hands or arms to push from behind, hang onto, or encircle an opponent in a manner that restricts his movements as the play develops. By use of up and down action of arm(s), the blocker is permitted to ward off the opponent's attempt to grasp his jersey or arm(s) and prevent legal contact to the head.
4. A defensive player may not tackle or hold an opponent other than a runner. Otherwise, he may use his hands, arms, or body only:
   (a) To defend or protect himself against an obstructing opponent.
   Exception: An eligible receiver is considered to be an obstructing opponent ONLY to a point five yards beyond the line of scrimmage unless the player who receives the snap clearly demonstrates no further intention to pass the ball. Within this five-yard zone, a defensive player may make contact with an eligible receiver that may be maintained as long as it is continuous and unbroken. The defensive player cannot use his hands or arms to push from behind, hang onto, or encircle an eligible receiver in a manner that restricts movement as the play develops. Beyond this five-yard limitation, a defender may use his hands or arms ONLY to defend or protect himself against impending contact caused by a receiver. In such reaction, the defender may not contact a receiver who attempts to take a path to evade him.
   (b) To push or pull opponent out of the way on line of scrimmage.
   (c) In actual attempt to get at or tackle runner.
   (d) To push or pull opponent out of the way in a legal attempt to recover a loose ball.
   (e) During a legal block on an opponent who is not an eligible pass receiver.
   (f) When legally blocking an eligible pass receiver above the waist.
   Exception: Eligible receivers lined up within two yards of the tackle, whether on or immediately behind the line, may be blocked below the waist at or behind the line of scrimmage. NO eligible receiver may be blocked below the waist after he goes beyond the line.
   Note: Once the quarterback hands off or pitches the ball to a back, or if the quarterback leaves the pocket area, the restrictions on the defensive team relative to the offensive receivers will end, provided the ball is not in the air.
5. A defensive player must not contact an opponent above the shoulders with the palm of his hand except to ward him off on the line. This exception is permitted only if it is not a repeated act against the same opponent during any one contact. In all other cases the palms may be used on head, neck, or face only to ward off or push an opponent in legal attempt to get at the ball.
6. Any offensive player who pretends to possess the ball or to whom a teammate pretends to give the ball may be tackled provided he is crossing his scrimmage line between the ends of a normal tight offensive line.
7. An offensive player who lines up more than two yards outside his own tackle or a player who, at the snap, is in a backfield position and subsequently takes a position more than two yards outside a tackle may not clip an opponent anywhere nor may he contact an opponent below the waist if the blocker is moving toward the ball and if contact is made within an area five yards on either side of the line.
8. A player of either team may block at any time provided it is not pass interference, fair catch interference, or unnecessary roughness.
9. A player may not bat or punch:
   (a) A loose ball (in field of play) toward his opponent's goal line or in any direction in either end zone.
   (b) A ball in player possession or attempt to get possession.
   (c) A pass in flight forward toward opponent's goal line.
   Exception: A forward or backward pass may be batted in any direction at any time by the defense.
10. No player may deliberately kick any ball except as a punt, dropkick, or placekick.

Forward Pass

1. A forward pass may be touched or caught by any eligible receiver. All members of the defensive team are eligible. Eligible receivers on the offensive team are players on either end of line (other than center, guard, or tackle) or players at least one yard behind the line at the snap. A T-formation quarterback is not eligible to receive a forward pass during a play from scrimmage.
   Exception: T-formation quarterback becomes eligible if pass is previously touched by an eligible receiver.
2. An offensive team may make only one forward pass during each play from scrimmage (Loss of down).
3. The passer must be behind his line of scrimmage (Loss of down and five yards, enforced from the spot of pass).
4. Any eligible offensive player may catch a forward pass. If a pass is touched by one offensive player and touched or caught by a second eligible offensive player, pass completion is legal. Further, all offensive players become eligible once a pass is touched by an eligible receiver or any defensive player.
5. The rules concerning a forward pass and ineligible recievers:
   (a) If ball is touched accidentally by an ineligible receiver on or behind his line: loss of down.
   (b) If ineligible receiver is illegally downfield: loss of 10 yards.
   (c) If touched or caught (intentionally or accidentally) by ineligible receiver beyond the line: loss of 10 yards.
   (d) If ineligible receiver is illegally downfield: loss of 10 yards.
6. If a forward pass is caught simultaneously by eligible players on opposing teams, possession goes to passing team.
7. Any forward pass becomes incomplete and ball is dead if:
   (a) Pass hits the ground or goes out of bounds.
   (b) Hits the goal post or the cross bar of either team.
   (c) Is caught by offensive player after touching ineligible receiver.
   (d) An illegal pass is caught by the passer.
8. A forward pass is complete when a receiver clearly touches the ground with both feet inbounds while in possession of the ball. If a receiver is carried out of bounds by an opponent while in possession of the ball, pass is complete at the out-of-bounds spot.

9. If an eligible receiver goes out of bounds accidentally or is forced out by a defender and returns to catch a pass, the play is regarded as a pass caught out of bounds. (Loss of down, no yardage.)
10. On a fourth down pass—when the offensive team is inside the opposition's 20 yard line—an incomplete pass results in a loss of down at the line of scrimmage.
11. If a personal foul is committed by the defense prior to the completion of a pass, the penalty is 15 yards from the spot where ball becomes dead.
12. If a personal foul is committed by the offense prior to the completion of a pass, the penalty is 15 yards from the previous line of scrimmage.

Intentional Grounding of Forward Pass

1. Intentional grounding of a forward pass is a foul: loss of down and 10 yards from previous spot if passer is in the field of play or loss of down at the spot of the foul if it occurs more than 10 yards behind the line or safety if passer is in his own end zone when ball is released.
2. It is considered intentional grounding of a forward pass when the ball strikes the ground after the passer throws, tosses, or lobs the ball to prevent a loss of yards by his team.

Protection of Passer

1. By interpretation, a pass begins when the passer—with possession of ball—starts to bring his hand forward. If ball strikes ground after this action has begun, play is ruled an incomplete pass. If passer loses control of ball prior to his bringing his hand forward, play is ruled a fumble.
2. No defensive player may run into a passer of a legal forward pass after the ball has left his hand (15 yards). The Referee must determine whether opponent had a reasonable chance to stop his momentum during an attempt to block the pass or tackle the passer while he still had the ball.
3. Officials are to blow the play dead as soon as the quarterback is clearly in the grasp of any tackler.

Pass Interference

1. There shall be no interference with a forward pass thrown from behind the line. The restriction for the passing team starts with the snap. The restriction on the defensive team starts when the ball leaves the passer's hand. Both restrictions end when the ball is touched by anyone.
2. The penalty for defensive pass interference is an automatic first down at the spot of the foul. If interference is in the end zone, it is first down for the offense on the defense's 1 yard line. If previous spot was inside the defense's 1 yard line, penalty is half the distance to the goal line.
3. The penalty for offensive pass interference is 10 yards from the previous spot.
4. It is interference when a player's movement beyond the passing team's line materially hinders the progress of an eligible opponent in his attempt to reach a pass.
   Exception: Such incidental movement or contact when two or more eligible players make a simultaneous and bona fide attempt to catch or bat the ball is permitted. "Simultaneous and bona fide" means the contact of an eligible receiver and a defensive player when each is playing the ball and contact is unavoidable and incidental to the act of trying to catch or bat the ball.
5. It must be remembered that defensive players have as much right to the path of the ball as eligible receivers. Any bodily contact, however severe, is not interference if a player is making a bona fide and simultaneous attempt to catch or bat the ball.

Backward Pass

1. Any pass not a forward pass is regarded as a backward pass or lateral. A pass parallel to the line is a backward pass. A runner may pass backward at any time. Any player on either team may catch the pass or recover the ball after it touches the ground.
2. A backward pass that strikes the ground can be recovered and advanced by offensive team.
3. A backward pass that strikes the ground can be recovered but cannot be advanced by the defensive team.
4. A backward pass caught in the air can be advanced by the defensive team.

Fumble

1. The distinction between a fumble and a muff should be kept in mind in considering rules about fumbles. A fumble is the loss of possession of the ball. A muff is the touching of a loose ball by a player in an unsuccessful attempt to obtain possession.
2. A fumble may be advanced by any player on either team regardless of whether recovered before or after ball hits the ground.
3. If an offensive player fumbles anywhere on the field during a fourth down play, or if a player fumbles on any down after the two-minute warning in a half, only the fumbling player is permitted to recover and or advance the ball. If recovered by any other offensive player, the ball is dead at the spot of the fumble unless it is recovered behind the spot of the fumble. In that case, ball is dead at spot of recovery. Any defensive player may recover and or advance any fumble.
   Exception: The fourth-down fumble does not apply if a player touches, but does not possess, a direct snap from center, i.e., a snap in flight as opposed to a hand-to-hand exchange.

Kicks From Scrimmage

1. Any punt or missed field goal that touches a goal post is dead.
2. During a kick from scrimmage, only the end men, as eligible receivers on the line of scrimmage at the time of the snap, are permitted to go beyond the line before the ball is kicked.
   Exception: An eligible receiver who, at the snap, is aligned or in motion behind the line and more than one yard outside the end man on his side of the line, clearly making him the outside receiver, REPLACES that end man as the player eligible to go downfield after the snap. All other members of the kicking team must remain at the line of scrimmage until the ball has been kicked.
3. Any punt that is blocked and does not cross the line of scrimmage can be recovered and advanced by either team. However, if offensive team recovers it must make the yardage necessary for its first down to retain possession if punt was on fourth down.
4. The kicking team may never advance its own kick even though legal recovery is made beyond the line of scrimmage. Possession only.
5. A member of the receiving team may not run or rough a kicker who kicks from behind his line unless contact is:
   (a) Incidental to and after he had touched ball in flight.
   (b) Caused by kicker's own motions.
   (c) Occurs during a quick kick, or a kick made after a run, or after kicker recovers a loose ball. Ball is loose when kicker muffs snap or snap hits ground.
   (d) Defender is blocked into kicker.
   The penalty for running into the kicker is 5 yards and an automatic first down. For roughing the kicker: 15 yards and disqualification if flagrant.
6. If a member of the kicking team attempting to down the ball on or inside opponent's 5 yard line carries the ball into the end zone, it is a touchback.
7. Fouls during a punt are enforced from the previous spot (line of scrimmage).
   Exception: Illegal touching, illegal fair catch, invalid fair catch signal, and fouls by the receiving team during loose ball after ball is kicked.
8. While the ball is in the air or rolling on the ground following a punt or field goal attempt and receiving team commits a foul before gaining possession, receiving team will retain possession and will be penalized for its foul.
9. It will be illegal for a defensive player to jump or stand on any player, or be picked up by a teammate or to use a hand or hands on a teammate to gain additional height in an attempt to block a kick (Penalty 15 yards, unsportsmanlike conduct).
10. A punted ball remains a kicked ball until it is declared dead or in possession of either team.
11. Any member of the punting team may down the ball anywhere in the field of play. However, it is illegal touching (Official's time out and receiver's ball at spot of illegal touching). This foul does not offset any foul by receivers during the down.
12. Defensive team may advance all kicks from scrimmage (including unsuccessful field goal) whether or not ball crosses defensive team's goal line. Rules pertaining to kicks from scrimmage apply until defensive team gains possession.

Fair Catch

1. The member of the receiving team must raise one arm full length above his head while kick is in flight. (Failure to give proper sign: receivers' ball five yards behind spot of signal.)
2. No opponent may interfere with the fair catcher, the ball, or his path to the ball. Penalty: 15 yards from spot of foul and fair catch is awarded.
3. A player who signals for a fair catch is not required to catch the ball. However, if a player signals for a fair catch, he may not block or initiate contact with any player on the kicking team until the ball touches a player. Penalty: snap 15 yards behind spot of foul.

4. If ball hits ground or is touched by member of kicking team in flight, fair catch signal is off and all rules for a kicked ball apply.
5. Any undue advance by a fair catch receiver is delay of game. No specific distance is specified for "undue advance" as ball is dead at spot of catch. If player comes to a reasonable stop, no penalty. For violation, five yards.
6. If time expires while ball is in play and a fair catch is awarded, receiving team may choose to extend the period with one free kick down. However, placekicker may not use tee.

Foul on Last Play of Half or Game

1. On a foul by defense on last play of half or game, the down is replayed if penalty is accepted.
2. On a foul by the offense on last play of half or game, the down is not replayed and the play in which the foul is committed is nullified.
   Exception: Fair catch interference, foul following change of possession, illegal touching. No score by offense counts.
3. On double foul on last play of half or game, down is replayed.

Spot of Enforcement of Foul

1. There are four basic spots at which a penalty for a foul is enforced:
   (a) Spot of foul: The spot where the foul is committed.
   (b) Previous spot: The spot where the ball was put in play.
   (c) Spot of snap, pass, fumble, return kick, or free kick: The spot where the act connected with the foul occurred.
   (d) Succeeding spot: The spot where the ball next would be put in play if no distance penalty were to be enforced.
   Exception: If foul occurs after a touchdown and before the whistle for a try-for-point, succeeding spot is spot of next kickoff.
2. All fouls committed by offensive team behind the line of scrimmage and in the field of play shall be penalized from the previous spot.
3. When spot of enforcement for fouls involving defensive holding or illegal use of hands by the defense is behind the line of scrimmage, any penalty yardage to be assessed on that play shall be measured from the line if the foul occurred beyond the line.

Double Foul

1. If there is a double foul during a down in which there is a change of possession, the team last gaining possession may keep the ball unless its foul was committed prior to the change of possession.
2. If double foul occurs after a change of possession, the defensive team retains the ball at the spot of its foul or dead ball spot.
3. If one of the fouls of a double foul involves disqualification, that player must be removed, but no penalty yardage is to be assessed.
4. If the kickers foul during a punt before possession changes and the receivers foul after possession changes, penalties will be offset and the down is replayed.

Penalty Enforced on Following Kickoff

1. When a team scores by touchdown, field goal, extra point, or safety and either team commits a personal foul, unsportsmanlike conduct, or obvious unfair act during the down, the penalty will be assessed on the following kickoff.

Guide for Statisticians

The chief statistician is selected by the individual club, subject to the Commissioner's approval. It is recommended that he have a minimum of two assistants plus a play-by-play typist. He shall have the responsibility to make decisions involving judgment, i.e., yardage on all plays, etc., and shall communicate such decisions to the press box via a loudspeaker system. He is to provide the news media with a halftime summary score sheet and at the conclusion of the game with a final summary score sheet. These pre-printed forms are to be provided by the home club, which is responsible for the duplicating of all copy and distribution in the press box.

In addition, the chief statistician shall prepare an official score blank provided by the league and, within an hour after the game, phone the league statisticians with the necessary information. This official score blank should then be mailed with two copies of the play-by-play to the statisticians. The chief statistician shall audit the statistics from the play-by-play and notify the league statisticians of any areas of disagreement between the play-by-play and the official score blank; such notification shall occur within 24 hours after completion of the game.

Games Played

A player is credited with a game played when he participated in at least one play, even if the only play in which he is involved is nullified by penalty, or even if no playing time is consumed.

Credit a player with a game started when he participates in Team A's first offensive play, or Team B's first offensive play. For purposes of this rule, the following plays are *not* regarded as offensive plays:

1. A kickoff
2. An extra point attempt
3. A punt or a field goal attempt from behind the line of scrimmage
4. A free kick following a safety

A play nullifed by penalty shall be regarded as a play for purposes of this rule.

Example I: A player on Team A returns the opening kickoff to Team B's 2 yard line. On first down, Team A uses a double-tight end offense; the second tight end is used in place of a wide receiver, who is the usual starter. On first-and-goal, Team A is penalized for holding. On first-and-goal from the 12, the wide receiver replaces the second tight end in the lineup. *Scoring:* Credit the tight end with a game started; no game started for the wide receiver.

Determining the Yard Line

If any point of the football rests on or above any yard stripe, future action is to be computed from that yard line. However, if all of the football has been advanced beyond any yard stripe, future action is computed from the first yard line in advance of the football.

The principle is to be followed on all spotting situations, regardless of down, with the following exceptions:

1. In certain situations (any down but first) where there is less than a yard to gain for a first down, it may be necessary to spot the ball back one yard to conform with the principle that there must always be, for statistical purposes, at least one yard remaining to be gained for a first down.

2. When, on first down, the ball rests just outside a defensive team's 10 yard line, it will be necessary to designate the scrimmage line as the 11 inasmuch as it would be possible for the offensive team to advance for a first down without scoring a touchdown.

3. See field goal section for determining yard line of attempts.

First Downs

Statistics are to be compiled on all first downs made via rushing, passing, and penalties.

First downs are compiled only from plays originating from the line of scrimmage and a first down shall be credited to each scoring play resulting from rushes or forward passes, regardless of the distance covered.

If a fumble occurs on a scrimmage play and the resultant *fumble return* or *loose ball* yardage provides the yardage necessary for a first down or a touchdown, the first down shall be credited to the category initiating the action. (For a passing category to be initiated, a pass must be thrown.) A first down is never scored if the team loses possession of the ball on the play, even if the required distance is achieved.

On broken plays where there is a fumble and subsequent recovery, and advance results in a first down or a touchdown, it shall be considered a first down rushing. Similarly, if following a blocked punt or field goal attempt, a player on the kicking team recovers and runs for a first down or a touchdown, credit a *first down rushing*, even though any subsequent

is treated as miscellaneous yardage.

Example 1. Passer attempting to pass fumbles. Teammate recovers and advances to first down. This is a *first down rushing,* but yardage is *fumble yardage.* (See Fumble Section, paragraph 8, and Passing Plays, paragraph 12.)

Ordinarily, there can be only one first down on a play. However, if a team advances by scrimmage action enough yardage for a first down and then a penalty that would ordinarily produce a first down (i.e., any *automatic first down* penalty or *15-yard penalty*) is assessed against the defense from the spot at which the scrimmage play concludes, two first downs (one by the scrimmage category initiating the action and one by penalty) shall be credited.

On the last play of the second or fourth quarter, or of an overtime period, if, in the scorer's judgment, offensive team advances the ball to a first down, credit should be given whether or not the officials so signify.

Third Down Efficiency

A third down attempt is credited whenever the offensive team is credited with either a rushing attempt, a pass, or a sack on its third down play. A third down conversion is credited whenever the offensive team is credited with either a first down rushing or a first down passing on its third down play.

EXCEPTION: Do not credit a third down attempt when the offensive team commits a foul (and the penalty is accepted by the defense), the spot of enforcement is in advance of the line of scrimmage, and the down remains the same.

Example I: Third-and-2 at midfield. Running back gains three yards but defense is offside. Offense elects to take a penalty; first-and-10 at the 45. *Scoring:* No entry is made in the third down efficiency category, since the first down was awarded by penalty.

Example II: Third-and-2 at midfield. Running back gains three yards, and defensive team is charged with facemask foul (not flagrant), moving the ball to the 42. *Scoring:* Two first downs are awarded (one rushing, one by penalty); credit a third down attempt and conversion, since the offense had made a first down without regard to the penalty.

Example III: Third-and-10 at midfield, offensive team ahead with 30 seconds remaining in the game. Quarterback falls to the ground after taking the snap, making no effort to gain yardage. *Scoring:* One third down attempt.

Example IV: Third-and-20 at offensive team's 1 yard line. Quarterback punts from behind the line of scrimmage. *Scoring:* No third down attempt.

Example V: Third-and-10 at midfield. Running back gains six yards, but a teammate is guilty of a personal foul, three yards in advance of the line of scrimmage. *Scoring:* Running back gets one rush for three yards, and his team is charged with a 15-yard penalty. No third down attempt is scored, since the spot of enforcement of the foul is ahead of the line of scrimmage. The next play is third-and-22 at the offensive team's 38.

Example VI: Third-and-10 at midfield. Quarterback scrambles one yard beyond the line, then throws a forward pass caught by a teammate. *Scoring:* Quarterback gets one rush for one yard, his team gets a five-yard penalty, and a third down attempt is scored, since the down changes. Next play is fourth-and-14 at the offensive team's 46.

Time of Possession

Time of possession is computed from the first play initiated by a team from the line of scrimmage until it scores, loses possession, or until the half or the game ends. When a change of possession (punt, fumble, interception, blocked kick) occurs during a play, consider the original team in possession until the play ends.

EXCEPTION: On a kickoff or on a free kick following a safety, all time consumed is credited to the team that first gains possession of the kick. (If neither team gains possession and the kick goes out of bounds, all time consumed is credited to the receiving team.)

Example I: Kickoff with 8:00 to play in the first quarter bounces off receiving team player and is recovered by kicking team with 7:50 to play. *Scoring:* Ten seconds of possession time is credited to kicking team, since it was the team that first *gained possession* of the kickoff.

Example II: Second-and-goal at the 1 yard line. Quarterback fumbles snap, defensive player recovers and runs the length of the field for a touchdown. Play consumes 25 seconds. *Scoring:* Original offensive team (the team that lost the fumble) is credited with 25 seconds of possession time.

Measuring a Scoring Drive

Scoring drive yardage is measured from the initial line of scrimmage to the goal line, in the event of a touchdown, or from the initial line of scrimmage to the last line of scrimmage for field goals, not the spot from which the kick is attempted. Penalty plays (where the down remains the same but the ball changes position) are not included in the total number of plays in a scoring drive. No scoring drive should exceed the total number of yards from the initial line to the goal line or to the last line of scrimmage for field goals.

Penalty Plays

Plays in which penalties are involved are scored as follows:

1. If the play is nullified in its entirety, and the penalty is to be assessed from the line of scrimmage, the penalty reflects the entire yardage. An example of this is a play nullified by offside, delay of game, offensive fouls at or behind the line of scrimmage, etc.

2. If a penalty occurs within the framework of a play and there is both yardage gained as well as penalty yardage assessed, the play is scored as follows in order to account for change in ball position:

Credit the offensive player(s) with yardage gained to the point of the infraction, and charge the offending team with the yardage specified by the infraction. This principle shall also apply in the case of a penalty occurring during a punting play (while the ball is in the air); if the penalty is assessed from the point of infraction, no return will be credited to receiving team. Offending (punting) team will be credited with downed punt and charged with penalty yardage specified.

Example I: Runnning back rushes for 25 yards, but a teammate is called for clipping 20 yards in advance of the line of scrimmage. *Scoring:* Running back gets one rushing attempt for 20 yards (to point of infraction). His team is penalized 15 yards. This accounts for forward movement of the ball of net 5 yards.

Example II: Quarterback completes pass for 17 yards to tight end and clipping occurs 15 yards in advance of line of scrimmage. *Scoring:* Quarterback is credited with one pass attempt, one pass completion for 15 yards. Tight end gets one pass reception for 15 yards. Team is charged with 15-yard penalty from point of infraction.

Example III: Running back gains 7 yards rushing, but offensive clipping occurs 5 yards in advance of line of scrimmage. Credit runner with 5 yards rushing (to point of infraction), team with 15-yard penalty from point of infraction even though play results in a 10-yard net loss from scrimmage.

Example IV: With ball at midfield, quarterback is tackled attempting to pass at his own 40, where the defensive team commits a facemask foul (*not* flagrant). Ball is moved back to midfield, according to rule, and offensive team is awarded a first down. *Scoring:* A sack for a ten-yard loss. Then, defensive team is charged with one penalty for ten yards. Credit the offensive team with a first down by penalty.

If the overall movement of the ball on a first down play is to a point beyond that needed for a first down, score a first down on the play. (Such action on a second, third, or fourth down play would be reflected by officials awarding a first down.)

Caution: Do not be confused by the fact that the down does not change in above circumstances unless the net yardage of play and penalty exceeds that needed for a first down.

3. When the spot of enforcement of a foul is at or behind the spot of possession on an interception, punt return, kickoff return, recovered fumble or miscellaneous yardage play, the player is credited with one return for no yards. Penalty yardage shall commence from the spot of enforcement.

Example: Player receives a punt on his own 40 and returns to his 48. His teammate is called for clipping at his 35. The 15-yard penalty is enforced from there, and the ball is moved to the 20. *Scoring:* Credit the returner with one return for no yards; his team is penalized 15 yards.

4. The receiving team commits an infraction while a punt is in the air and the yardage is enforced from the point of the infraction. *Scoring:* If the ball is handled, one punt return for no yards or a fair catch, as the case may be. If the infraction occurs in front of the returner, the punt should be measured to the point at which the punt ends.

5. A pass interference call is wholly a penalty play and first downs are credited accordingly.

6. When an offensive foul occurs on the last play of a half *and the offensive team gains yardage on the play,* the play is *nullifed* in its entirety. Charge the team with one penalty for *no yards.*

EXCEPTION: When the foul is in advance of the line of scrimmage, and the normal spot of enforcement would be beyond the line of scrimmage, credit yards gained to the spot of the foul. Charge the team with one penalty for *no yards.* Also, if on the last play of a half, the defensive team

scores on a play during which the offensive team commits a foul, the play stands and the score counts, because the penalty is declined.

Example I: Second-and-4 at offensive team's 20 yard line. On last play of half, player runs for 6 yards, but a teammate is offside. *Scoring:* The play is nullified (no rushing attempt). Charge one penalty for *no yards.*

Example II: Second-and-4 at offensive team's 20 yard line. On last play of half, player runs for 30 yards, but a teammate is called for clipping at his own 45 yard line. *Scoring:* Since this foul occurred downfield within the framework of the play, player receives one rush for 25 yards (to point of foul) and his team gets a first down rushing. Charge the team with one penalty for *no yards.*

Example III: Second-and-4 at offensive team's 20 yard line. On last play of a half, a pass is incomplete. Offensive team is called for holding behind the line of scrimmage. *Scoring:* Since the offensive team did not gain yardage, charge the passer with one attempt. Do *not* charge a penalty.

Example IV: Second-and-4 at offensive team's 20 yard line. On last play of a half, quarterback is sacked for a loss of 12 yards; a teammate is called for holding behind the line of scrimmage. *Scoring:* Since the offensive team did not gain yardage, score one sack for 12 yards. Do *not* charge a penalty.

Example V: Second-and-4 at offensive team's 20 yard line. On last play of a half, quarterback's pass is intercepted at the 50. The ball is returned to the 30, but a teammate of the interceptor is called for clipping at the 40. Meanwhile, the original offensive team was guilty of illegal motion at the snap. *Scoring:* The offensive team did not gain yardage, so the play stands; score an interception, and credit the interceptor with 10 return yards (to the spot of the foul). Charge *his* team with one penalty for *no yards.*

Example VI: Second-and-4 at offensive team's 20 yard line. On last play of a half, offensive team is guilty of illegal motion at the snap. Running back gains two yards and fumbles; defensive player recovers at the 22 and returns to the 10. *Scoring:* Since offensive team's runner gained yardage on the play, this play is nullified in its entirety. Charge the offensive team with one penalty for *no yards.*

Example VII: Second-and-4 at offensive team's 20 yard line. On last play of a half, offensive team is guilty of illegal motion at the snap. Running back fumbles at 22, but ball bounces back to the 18, where anyone recovers and is tackled. *Scoring:* Running back gets one rush for minus two yards. Do *not* charge a penalty.

7. Penalty yardage may be assessed on an extra point attempt.

Example I: Defensive team is offside as an extra point attempt is good. The penalty is assessed on the subsequent kickoff. *Scoring:* One penalty for 5 yards.

Example II: Offensive team is offside as an extra point attempt is good. Ball is moved back from the 2 to the 7 yard line for the next attempt. *Scoring:* One penalty for 5 yards.

Example III: Defensive team is offside as an extra point attempt is missed. The offensive team elects:

(a) to rekick, with the ball remaining at the 2 yard line. *Scoring:* Defensive team is charged with one penalty, no yards.

(b) to rekick, with the ball moved to the 1 yard line. *Scoring:* Defensive team is charged with one penalty for 1 yard.

Rushing

All plays from scrimmage are rushing plays unless:

1. There is a kick from behind the line of scrimmage; or
2. There is a pass from behind the line of scrimmage; or
3. A player makes an apparent attempt to pass at any time before he or a teammate is tackled, steps out of bounds or fumbles behind or at the line of scrimmage.

There is no separate category for "yards lost" rushing, and the yardage for both individual and team is determined by deducting the minus figures from the plus figures to arrive at *net yards gained.* For example, a player gains 5 yards on one attempt and minus 2 on another. His totals would be 2 rushing attempts and a net gain of 3 yards.

A run from a fake punt or field goal formation is considered a rushing attempt.

On a rushing play, the last player to handle a pitchout, backward pass, handoff, or reverse is charged with a rushing attempt, and is responsible for any yardage gained or lost from scrimmage, *provided* that he receives the ball at or behind the line of scrimmage. If a player receives a pitchout, backward pass, handoff, or reverse beyond the line of scrimmage, credit the player responsible with yardage gained to the point of the second player's possession.

Example I: First-and-10 on opponent's 20 yard line. Player runs to the 18, then pitches back to a teammate on the 22, where the teammate is downed. *Scoring:* Second player gets one rush, minus 2 yards.

Example II: First-and-10 on opponent's 20 yard line. Player runs to the 15, then pitches back to a teammate on the 18; teammate runs to the 8. *Scoring:* First player gets one rush, 2 yards; second player gets 10 yards rushing (*no* rushing attempt); credit a first down rushing.

Example III: First-and-10 on opponent's 20 yard line. Player runs to the 15, pitches back to a teammate on the 18, where he is downed. *Scoring:* First player gets one rush, 2 yards.

Example IV: First-and-10 on opponent's 20 yard line. Quarterback hands ball to runner, who is about to be tackled at 25 when he laterals or hands ball to a teammate on the 26, where the teammate is downed. *Scoring:* Last player handling ball gets one rush, minus 6 yards.

Example V: First-and-10 on opponent's 20 yard line. Player runs to the 3, then laterals to a teammate on the 5, where the teammate is downed. *Scoring:* First player gets one rush, 15 yards; credit a first down rushing.

Example VI: First-and 10 on opponent's 20 yard line. Player runs to the 3, then laterals to a teammate on the 5; teammate runs for a touchdown. *Scoring:* First player gets one rush, 15 yards; second player gets 5 yards and touchdown rushing (*no* rushing attempt); credit a first down rushing.

For fumbles on rushing plays see Fumbles section.

Passing

The passing category includes both the forward pass and the forward pass reception. (In this section, the word "pass" shall indicate "forward pass" unless otherwise noted.)

Passing yardage is computed from the line of scrimmage and includes the length of the pass plus the running yardage gained or lost by the receiver after the completion.

If a forward pass is completed behind the line of scrimmage and the receiver is downed, credit the passer with an attempt and completion and the minus yardage.

A forward pass ruled complete due to interference is not considered an attempt or a completion. It is a penalty play (yardage and first down).

Charge a player with a pass attempt when he:

1. Throws a completed pass;
2. Throws an intercepted pass;
3. Throws an incomplete pass, including when:

A. The pass strikes the ground or goes out of bounds;

B. The pass accidentally touches an ineligible offensive player on or behind the line of scrimmage;

C. The pass is the second forward pass from behind the line of scrimmage and it is caught by an offensive player; when this occurs, no completion or yardage is credited for the original (completed) pass;

D. The pass is caught by an ineligible offensive player on or behind the line of scrimmage;

E. The pass is thrown from behind the line of scrimmage, after having been carried or passed backward from a spot behind the line;

F. The pass is touched by an eligible offensive player returning from out of bounds.

Do *not* charge a pass attempt when the acceptance of a penalty nullifies the play in its entirety (e.g., roughing the passer on an incomplete pass), if the penalty is for a continuing action foul.

At times, a penalty will be enforced *in addition* to the loss of down, which is the result of an incompletion. In these cases, charge a pass attempt as well as any penalty yardage that is enforced. *Examples:* Intentional grounding, ineligible receiver touches a pass beyond the line of scrimmage, etc.

When a player throws a forward pass from beyond the line of scrimmage, and the penalty is accepted, do *not* charge the passer with a pass attempt. Credit him with yards gained (in the category initiating the action) to the point of the pass; penalty yardage will commence from that spot.

Example I: Second-and-10 at own 30 yard line. Quarterback, back to pass, runs beyond line and throws forward pass at 34. *Scoring.* One rush for 4 yards; one penalty for 5 yards.

Example II: Second-and-10 at own 30 yard line. Pass is completed to 50, where the receiver, attempting to lateral, throws a forward pass. *Scoring:* One completion for 20 yards; one penalty for 5 yards. Credit a first down passing.

When the defense declines a penalty for a forward pass thrown from advance of the line of scrimmage, the scoring shall reflect the net movement during the play.

Example III: Second-and-10 at own 30 yard line. Pass is completed to 50, where the receiver, attempting to lateral, throws a forward pass that is intercepted at opponent's 49 and returned for a touchdown. *Scoring:* One completion (reception) for 20 yards. Player receiving the original pass also gets one pass (intercepted). (Defense declines the penalty in order to score the touchdown.)

The same rules apply when a forward pass not from scrimmage is thrown (e.g., on a punt return): No pass attempt is charged, unless the ball is intercepted. Penalty yardage is assessed from the spot of the foul.

In passing statistics there is a category called "sacks and yards lost attempting to pass." It shall be determined by the following rules:

1. When the quarterback or a teammate, makes an apparent attempt to pass at any time before he or a teammate is tackled, steps out of bounds, or fumbles behind or at the line of scrimmage, the play is scored as a sack and any yards lost attempting to pass. (Should he advance the ball across the line of scrimmage, it is a rushing play.)

2. When the quarterback is tackled or, after *gaining possession* of the snap, he fumbles or falls down, while retreating to his normal passing position, it shall be scored as a sack and yards lost attempting to pass, even though he may not have assumed a passing position.

Example I: Second-and-1 at own 20 yard line. Quarterback, back to pass, fumbles the ball while standing in the pocket, without any defensive contact. He recovers at the 13. *Scoring:* One sack and 7 yards lost, a fumble, and an own recovery.

Example II: Second-and-1 at own 20 yard line. Quarterback takes snap, then while retreating to pass, fumbles. Ball rolls to 10, and then is batted back to the 5, where a player recovers and is downed. *Scoring:* Charge one sack and 10 yards lost (to point of first batting). The other 5 yards are the result of a loose ball. (See Fumbles, 6. E. (b).)

Example III: Third-and-25 at own 40 yard line. Quarterback fumbles snap on what appears to be a definite passing down. He recovers at the 35. *Scoring:* An aborted play; quarterback gets one rush for no yards, a fumble, an own recovery, and minus 5 (fumble yardage) yards.

3. When a quarterback rolls out, or a player other than the quarterback handles the ball on an option play, or takes the snap in a "shotgun" formation, and makes an *apparent attempt* to pass before being tackled or stepping out of bounds behind or at the line of scrimmage, it shall be scored as a sack and any yards lost attempting to pass. If the player makes no *apparent attempt* to pass, the play shall be considered a rushing play.

4. The individual passer shall not be charged with an attempted forward pass, or yardage lost, when the play is scored as a sack. However, the yardage lost on such plays *MUST* be deducted from his team's gross passing yardage to reflect *net yards gained passing.*

For fumbles on passing plays see Fumbles section.

Sacks

Credit a sack to the appropriate defensive player whenever a sack is scored against the offensive team, subject to the following principles:

1. When the player making an apparent attempt to pass is tackled or downed at or behind the line of scrimmage, credit a sack to the defensive player who tackled or downed the potential passer.

EXCEPTION: If the potential passer fumbles *before contact by the defense,* no sack is credited to any *individual* defensive player.

2. When the player making an apparent attempt to pass steps out of bounds at or behind the line of scrimmage in order to avoid imminent contact with a defensive player, credit that defensive player with a sack. If the potential passer steps out of bounds *without* the pressure of such imminent contact, no sack is credited to any *individual* defensive player.

When one defensive player is *primarily* responsible for a sack, as defined by the foregoing principles, he shall receive credit for a sack. When two or more defensive players are adjudged by the official scorer to be equally responsible for a sack, credit for the sack shall be divided equally between or among the responsible defensive players.

Example I: Second-and-10 at midfield. In retreating to pass, quarterback fumbles the ball without having been touched by a defender, and recovers at his own 40, where he is downed by the defensive tackle. *Scoring:* A sack for 10 yards, but no individual defensive player is credited with the sack.

Example II: Second-and-10 at midfield. Quarterback, trying to pass, eludes defensive tackle's rush and, at his own 40, runs upfield toward sidelines. At his own 47, pursued by the defensive tackle, he goes out of bounds before he can be hit by a linebacker, who is charging toward the quarterback from his downfield position, and who was about to stop the quarterback's advance, should he have remained in-bounds. *Scoring:* A sack for three yards; credit the sack to the linebacker, for it was because of imminent contact with *him* that the quarterback elected to run out of bounds. (The pursuing defensive tackle has already been eluded by the quarterback.)

Lateral Passes

Lateral passes subsequent to the originating play are considered as part of the play from which they originate. The receiver of a lateral is given credit for the yardage he gains from the point of the lateral *BUT* he is not given an attempt, return, or reception on the play. (See Exceptions listed under Kickoff Returns.) For example, a forward pass is completed and the receiver advances 40 yards, then laterals to a teammate who advances the ball an additional 20 yards. This is considered a 60-yard pass play. The first receiver is credited with the reception and 40 yards gained; his teammate, although not credited with a reception, would appear in the pass receiving section with 20 yards gained, annotated with an asterisk (*Lateral). If a touchdown is scored as a result of such a play, the player who scores shall be credited with a touchdown via receiving. In any case the original play determines in what category the touchdown was made.

When the receiver of a backward pass, or lateral, is beyond the line of scrimmage, it is *his* position that determines the yardage gained by each of the individuals involved. The player who throws the pass is credited with yards gained only to the point at which the pass is caught or (if muffed) is recovered, provided this point is behind the spot of the pass.

Example: Second-and-20 on own 20 yard line. Player catches a forward pass at his own 40, then throws a backward pass to teammate on the 38. The teammate then:

(a) is downed at the 38. *Scoring:* First player gets one reception for 18 yards.

(b) runs to the 45. *Scoring:* First player gets one reception for 18 yards; second player gets 7 yards in pass receiving category, but is not credited with a reception. Credit a first down passing.

(c) muffs the ball and an opponent recovers on the 33. *Scoring:* First player gets one reception for 13 yards and a fumble. Opponent gets a fumble recovery.

Interceptions

Interception yardage is computed from the point where the impetus of the act of interception ends and the intercepting player begins forward or backward movement on his own. This *includes* the end zone area of the intercepting player, except that a player making an interception in his own end zone shall not be credited with any return yardage if the ball becomes dead behind his own goal line.

Example I: Player intercepts the ball five yards deep in his end zone, and returns to his 7 yard line. *Scoring:* 12-yard return.

Example II: Player intercepts the ball five yards deep in his end zone, starts to run, but stops one yard short of the goal line, where he downs the ball or is tackled for a touchback. *Scoring:* One interception for no yards; the ball never left the end zone.

Punts

All punts from behind or on the line of scrimmage shall be measured from the line of scrimmage to the point at which the impetus of the punt ends, or the ball goes out of bounds, or is downed. If a punt goes into the end zone, measure its length to the goal line, unless the ball is fielded and returned out of the end zone by the receiving team (in such a case, measure the punt to the spot of possession in the end zone by the receiver). All punts from beyond the line of scrimmage, and all punts following an exchange of possession ("return kicks") shall be measured from the spot of the kick to the point at which the impetus of the punt ends, or the ball goes out of bounds or is downed.

EXCEPTION: If a punt is touched (but not possessed) by the receiving team and is recovered by the kicking team in the end zone, measure the punt to the point at which the ball is spotted on the field of play (either the spot of the touch or the 1 yard line).

The impetus of a punt continues until the receiving team is in possession or the kickers legally recover, unless:

(a) the ball is batted or kicked by the kicking team (measure the punt to the spot of the bat or kick); or

(b) the receiving team has touched the ball, causing the ball to change direction and bounce toward the kickers' goal line; measure the punt to the spot of the touch.

Example I: A punt from the 50 touches a receiver on the 10, and is recovered by the kickers in the end zone. *Scoring:* A 40-yard punt; kickers' ball, first-and-10 at the 10.

Example II: A punt from the 50 is rolling slowly on the 10 when a kicking team player running downfield accidentally knocks the ball into the end zone for a touchback. *Scoring:* A 40-yard punt.

Example III: A punt from the 50 is muffed by a receiver on the 10. The ball bounces upfield where it is recovered by anyone at the 18. *Scoring:* A 40-yard punt (to the spot of the first touch by receivers).

Example IV: A punt from the 50 goes into the end zone (three yards deep), where a receiving team player fields it and returns to the 7. *Scoring:* A 53-yard punt and a 10-yard return.

A blocked punt is scored *only* when the punted ball fails to go beyond the line of scrimmage. A "partially blocked" punt that travels beyond the line of scrimmage is *not* a blocked punt. A blocked punt is charged as a punt to the team, but not to the individual punter.

Do not charge a player with a punt unless he actually punts the ball. Note that if the center snap is *satisfactory* and the punter does not fumble, but is tackled before he punts or while attempting to run, the play is a rushing play. If the play develops as action off a fake punt play, score the play as a rush, pass, or tackled attempting to pass consistent with the basic scoring rules on scrimmage plays.

Credit a player with an inside-20 when his punt is not returned to the receivers' 20 yard line or beyond. A touchback is *not* an inside-20. When there is a penalty during the return, the point at which the return ends statistically is the determining spot for crediting an inside-20.

If, following a punt or punt return, the ball is positioned between the receivers' 19 and 20 yard lines, *no inside 20 is scored* if the ball is statistically determined to be on the 20 yard line.

Example V: A punt from the 50 is caught on the 15 and returned to the 30. Receivers commit a clipping foul at the 30, and the ball is moved back to the 15. *Scoring:* A 35-yard punt, 15-yard return, and a 15-yard penalty. Do not credit an inside-20, since the return took the ball to the 30. First-and-10 at the 15.

Example VI: Fourth-and-seven at midfield. Punter receives snap, runs toward the line of scrimmage and beyond to opponents' 45, where he punts to opponents' 10, out of bounds. *Scoring:* One rush for five yards, one punt for 35 yards, and an inside-20.

To compile the net punting average of each punter, divide the total number of punts (including blocked punts not charged against him individually) into his gross punting yardage minus touchbacks (delete 20 yards per touchback) and minus return yardage. *Example:* Player punts 59 times for 2,536 gross yards, a 43.0 average. Two additional punts are blocked, for which he is not charged. Of his 59 punts, 11 result in touchbacks and 29 are returned for 179 yards. To compute his Punting Game effectiveness, divide 61 punts into net yardage of 2,137 (2,536 minus 220 for touchbacks minus 179 return yardage). His team's Punting Game effectiveness when he is punting is 35.3.

Blocked Kicks

When a punt or a field goal attempt is blocked and recovered by the offensive team behind the line of scrimmage any running advance is treated as miscellaneous yardage. In the rare case when the offensive player attempts a forward pass after a blocked kick, include it as a passing attempt and any completion as passing yardage. However, if the player is tackled behind the line of scrimmage *do not* treat this as yards lost attempting to pass. In the latter case merely note the player recovered a blocked kick. NOTE: Regardless of any subsequent action the original blocked punt or field goal must be recorded.

Punt Returns

A punt return is credited to the first player on the receiving team who gains possession of the punt.

EXCEPTION: If, prior to the receiving team gaining possession of the punt, the ball is muffed or touched by a receiver *who is trying to gain possession*, then the punt return is credited to the player who first muffed or touched the ball. (Note that this exception does *not apply* if the ball touches a player who was *not* trying to gain possession.)

If the punt is legally recovered by the kicking team before any receiving team player gains possession, then charge a punt return to the first player on the receiving team who touched (or was touched by) the ball, whether or not he was trying to gain possession.

Example I: Punt from the 50. Receiver tries to catch the ball on the 20, but it bounces off (or through) his hands and is recovered by a teammate on the 12. *Scoring:* A 38-yard punt (the impetus of the punt continued to the 12 yard line). The punt return is credited to the player who muffed the ball at the 20; he also gets a fumble, and the recovering player is credited with an own recovery.

Example II: Punt from the 50. Ball is touched by a receiver on the 20 (whether or not he was trying to gain possession), and kicking team player recovers at the 15. *Scoring:* A 35-yard punt (the impetus of the punt continued to the 15 yard line). The punt return is credited to the player who touched (or was touched by) the ball at the 20; he also gets a fumble, and the appropriate player on the kicking team is credited with an opponents' recovery.

Example III: Punt from the 50. Ball bounces at the 25, and after taking an unusual bounce, strikes the leg of a receiver who is trying to avoid the ball. The ball rolls to the 20, where it is recovered by another receiving-team player. *Scoring:* A 30-yard punt (the impetus of the punt continued to the 20 yard line). The punt return is credited to the player who recovered (and first possessed) the ball, since the prior touching was *not* by a player who was trying to gain possession.

Do not charge a punt return to a player who:
(1) signals for, and makes a fair catch; or
(2) signals for a fair catch, but is fouled before having the opportunity to make the catch.

In both of the above circumstances, credit a fair catch. Do *not* credit a fair catch if the player muffs the ball following a fair catch signal, regardless of who recovers the ball. Credit the player with a punt return and fumble; the appropriate player is credited with a fumble recovery.

The distance of a punt return shall be measured from the point at which the impetus of the punt ends and the receiver is able to initiate forward progress.

Example IV: A player takes a punt on his own 30, runs back 10 yards to his own 20, then forward to the 35. The punt return is measured as five yards.

Example V: A player takes a punt on his own 30 but retreats 3 yards to the 27 because the impetus of the punt requires him to move backward. He then advances back to the 30. The punt is recorded to the 27, and the punt return is measured as 3 yards.

Example VI: A player catches the ball on his own 30, runs back 20 yards and is tackled on his own 10. The punt return is recorded as minus 20 yards, and the punt is recorded ONLY to the 30 yard line.

Return by the defensive player of a blocked punt is not considered a punt return. The player and the yardage gained shall be noted on the back of the official score blank under "remarks."

On the score blank the total punts for the team should equal the total punt returns, plus the fair catches, plus the punts out of bounds, plus the punt touchbacks, plus punts downed, and punts blocked. Official scorers should always reconcile these figures on the score blank.

For fumbles on punt returns see Fumbles section.

Kickoff Returns

A kickoff return is credited to the first player on the receiving team who gains possession of the kickoff except:
(1) if the player who fields the kickoff makes no effort to advance an apparent onside kick, and if the first touching of the ball is within 15 yards of the spot of the kick, *no kickoff return is credited.*
(2) when the receiver of the kickoff *makes no advance of* the ball, but instead laterals or hands off to a teammate. If there is no fumble during the exchange (meaning if the ball does *not* touch the ground), the second player is given credit for any return and the yardage is computed from the point at which he gains possession.
(3) when the receiver of the kickoff gains less than 10 yards before he laterals or hands off to a teammate and that teammate gains more yardage than the original handler of the kickoff. In such a case, the second player receives credit for a kickoff return and yardage; the first player gets no return but does get return yards (not more than nine).
(4) if, prior to the receiving team gaining possession of the kickoff, the ball is muffed or touched by a receiver *who is trying to gain possession*, and the first player who gains possession makes no effort to advance the ball, then the kickoff return and a fumble are credited to the player who first muffed or touched the ball.
(5) if the receiving team downs the ball in the end zone for a touchback, even if there is touching by players on either team on the field of play.

Note that a kickoff return is credited on any kickoff that is first touched by the receivers more than 15 yards from the spot of the kick. Example: A receiver downs the ball in the end zone for a touchback. When the receiving team gains possession of a kickoff

return unless the ball goes out of bounds or is recovered by the kicking team *after* touching (or having been touched by) a receiving team player, *and* the first such touching is more than 15 yards from the spot of the kick. In such a case, credit a kickoff return and a fumble to the player on the receiving team who touched (or was touched by) the ball.

The distance of a kickoff shall be measured from the point at which the impetus of the kickoff ends and the receiver *gains possession and is able to initiate forward progress.* This includes the *end zone* area. For example, a player takes the kickoff on the 10, runs back to the 5 and then advances to the 20. He is credited with a 10-yard return. Another example: A player takes the kickoff on the 10, but retreats to the 7 because the impetus of the kickoff requires him to do so. He then advances to the 20. He is credited with a 13-yard return. A third example: A player takes the ball on the 10, but runs back to the 5, where he is tackled. He is credited with one kickoff return for MINUS 5 yards.

Example I: A player receives a kickoff on the 20, makes no attempt to advance but laterals to a teammate on the 15, who then advances to the 17. The first player is not credited with a kickoff return, but his teammate is credited with one return for 2 yards.

Example II: A player receives the kickoff on the 20, makes no attempt to advance, but laterals to a teammate on the 15. The teammate then retreats and is tackled on the 12. The first player is not credited with a return, but the teammate is credited with one return for MINUS 3 yards.

Example III: A player receives the kickoff on the 20 and then runs laterally across the field and hands off to a teammate on the 18. The teammate returns to the 25 and is credited with one return for 7 yards.

Example IV: A player receives the kickoff on the 20, *then advances to the* 22 before lateralling to a teammate on the 15. The teammate advances to the 30. The first player is credited with no return for 2 yards and the second player one return for 8 yards.

Example V: A player receives the kickoff on the 20, *then advances to the* 22 before lateralling to a teammate on the 15. The teammate is tackled on the 17. The first player is credited with one kickoff return for MINUS 3 yards and second player is not credited with a return or yardage.

Example VI: A player receives a kickoff on the 20, *then advances to the* 22 before handing off to a teammate. The teammate then runs to the 30. In this instance, the first player is credited with no return for 2 yards and the second player one return for 8 yards.

Example VII: A player receives a kickoff on the 20, *then advances to the* 22 before handing off to a teammate, who then retreats and is tackled on the 19. The first player is credited with one kickoff return for no yards and the second player with no kickoff return with MINUS 1 yard.

If the lateral is a bad pass or the handoff is fumbled, then the first player is credited with one return for no yardage and the remainder of the play is treated as a fumble. For this and other fumbles on kickoff returns, see Fumbles section.

The general provisions for scoring a fair catch, which appear in the Punt Returns section, also apply to kickoff returns.

Free Kicks

Free kicks shall be scored as kickoffs in all instances, regardless of whether they are punted or made from placement. The receiver gets credit for a kickoff return in all cases.

EXCEPTION: When a free kick is called for (following a fair catch of a punt) to attempt a field goal, the kicker shall be charged with a field goal attempt. Any yardage on a runback by an opposing player shall be credited as miscellaneous yardage, as with any other field goal attempt.

Fumbles

Definitions of Fumbles and Recoveries

1. A fumble is an act that results in an individual's loss of possession of the ball or his failure to handle a ball which has been properly centered or handed to him. *EXCEPTIONS:* No fumble shall be charged (a) on an attempted point-after-touchdown, or (b) on a momentary bobble of the ball at the point of reception if in the scorer's judgement the bobble had no effect on the continuing action, provided that the ball has not touched the ground or another player. A fumble is also charged in certain instances in which a player *muffs* a ball punted to him. See Punt Returns section.

2. If a fumbled ball (a) goes out of bounds and remains in possession of the team fumbling, or (b) goes over the end line for a touchback or safety, score the play as a fumble and also note it as "fumble out of bounds" under the fumbles section.

3. "Own recovery" designates a fumble recovered by any member of the team committing the fumble. "Opponent's recovery" designates a fumble recovered by any member of the team *not* committing the fumble. Note that there must be a "recovery" for every fumble charged except for fumbles that go out of bounds. "Fumbles lost" refers to all fumbles which result in opponent's recoveries, or which are fumbled through the end zone for touchbacks. (Note: A fumble through a team's *own* end zone for a safety is *not* a fumble lost.)

4. When a fumbled ball is touched by several players, only the player who lost possession originally shall be charged with a fumble and only the player who ultimately gains possession shall be credited with a recovery. There can be more than one fumble and more than one recovery on a single play only if possession is clearly established following the original fumble.

5. When a bobbled ball is recovered out of the air by a teammate or an opponent, it shall be scored as a fumble and a recovery. *EXCEPTION:* If a receiver juggles a pass without establishing possession and a teammate or an opponent gains possession in the air, it shall be scored as a completed pass or interception as the case may be.

Principles of Scoring Yardage on Fumble Plays

6. Any yardage gained or lost on a rushing play in which a fumble occurs—except on Aborted Plays described in Number 7—shall be recorded as follows:

A. When a player recovers his own fumble, credit him with net yardage gained or lost on the play in the category initiating the action. (Charge him with a fumble and credit him with "own recovery.")

B. When a teammate recovers:
   (a) Behind (or on) the line of scrimmage, charge the player who fumbled with all yardage lost, if any, to the point of recovery or the new line of scrimmage, whichever is less.
   (b) Beyond the line of scrimmage, credit the player who fumbled with yardage gained to the point of his advance or the point of recovery, whichever is less.

C. When an opponent recovers:
   (a) Behind (or on) the line of scrimmage, charge the player who fumbled with yardage lost, if any, to the point of recovery.
   (b) Beyond the line of scrimmage, credit the player who fumbled with yardage gained to the point of his advance or the point of recovery, whichever is less.

D. A teammate or opponent who recovers shall be credited with fumble yardage for any gain or loss from the point of recovery. If a teammate recovers *behind* the line of scrimmage and advances the ball, fumble yardage commences from the line of scrimmage. The theory is that the player who fumbled shall benefit from any advance a teammate may make behind the line of scrimmage. (Note that no minus yardage can be charged unless a teammate or opponent causes the minus yardage by running or throwing the ball after gaining possession of it.)

E. (a) When a fumbled ball rolls free and is recovered beyond the point of the fumble (by either a teammate or an opponent), any yardage between the spot of the fumble and the spot of recovery is loose ball yardage.
   (b) When a fumbled ball is touched, legally batted, or kicked by any player (including the player who fumbled), and the spot of this action is behind the spot of the fumble, charge the player who fumbles with yardage lost to the spot of the first such touch, bat, or kick; the rest of the yardage is loose ball yardage. If an opponent eventually gains possession, his fumble yardage shall be credited from the spot at which he gains possession. If a teammate gains possession, his fumble yardage shall commence at the spot of the fumble or the spot of possession (whichever is nearer the opponents' goal line).

Scoring of Fumble Plays

ABORTED PLAYS

7. An *aborted play* is a play from scrimmage which falls into one of the following categories:

A. the ball is *clearly* centered improperly, meaning that the ball does not reach the intended receiver of the snap within the frame of his body or arm-span;
B. the intended ball-handler fumbles the snap from center;
C. a player hands off or laterals improperly, behind the line of scrimmage;
D. a backward pass (including a handoff) behind the line of scrimmage is mishandled, resulting in the ball touching the ground or being caught in flight by another player.

In each of these cases, charge a rush for no yards. In A. and B., the rush is charged to the player who receives, or intended to receive, the snap from center. In C. and D., the rush is charged to the player who hands off or laterals improperly, or who throws a backward pass which is muffed.

EXCEPTION: If the player charged with the rush recovers the loose ball and advances beyond the line of scrimmage, credit any advance as rushing yardage.

When the ball is clearly centered improperly, charge the center with a fumble and any yards lost as fumble yardage. On any other aborted play, the player charged with the rush is also charged with a fumble and any yards lost as fumble yardage.

If a teammate recovers behind the line of scrimmage and advances beyond the line, credit that player with fumble yardage equal to the distance between the old and new lines of scrimmage.

If an opponent recovers behind the line of scrimmage, charge fumble yardage to the offensive player to the point of recovery *only.*

If a player from either team (other than the player charged with the rush) makes the initial recovery beyond the line of scrimmage, the ball movement to the point of recovery shall be treated as loose ball yardage. If the player charged with the rush makes such a recovery, credit him with rushing yardage equal to the gain on the play.

Example I: Second-and-10 at own 20 yard line. Quarterback fumbles the snap, and the teammate recovers at the 15, where he is downed. *Scoring:* Quarterback gets one rush for no yards, a fumble, and minus 5 yards as fumble yardage. Teammate gets an own recovery.

Example II: Same play as above, except that the teammate advances to:

A. the 18 yard line. *Scoring:* Quarterback gets one rush for no yards, a fumble and minus 2 yards as fumble yardage. Teammate gets an own recovery.
B. the 30 yard line. *Scoring:* Quarterback gets one rush for no yards and a fumble. Teammate gets an own recovery, 10 yards (fumble yardage) and team is credited with a first down *rushing.*

Example III: Second-and-10 at own 20 yard line. Quarterback fumbles the snap, then recovers and advances to the 24. *Scoring:* Quarterback gets one rush for 4 yards, a fumble, and an own recovery.

Example IV: Fourth-and-10 at own 20 yard line. Punter intends to receive snap, but it is clearly centered improperly. Then:

A. Punter recovers at the 5 where he is downed. *Scoring:* Center gets a fumble and minus 15 as fumble yardage. Punter gets one rush for no yards and an own recovery.
B. Punter recovers at the 5 and runs to the 22. *Scoring:* Center gets a fumble. Punter gets an own recovery, and a rush for 2 yards.
C. Blocking back recovers at the 5, where he is downed or the ball is declared dead. *Scoring:* Center gets a fumble and minus 15 as fumble yardage. Punter gets a rush for no yards. Blocking back gets an own recovery.
D. Blocking back recovers at the 5, runs to the 35. *Scoring:* Center gets a fumble. Punter gets one rush for no yards. Blocking back gets an own recovery, 15 yards (fumble yardage), and team is credited with a first down *rushing.*

Example V: Second-and-10 at own 20 yard line. Quarterback takes snap, turns to hand off to running back, and the exchange is mis-handled. The ball bounces free and is recovered by anyone at the 12. *Scoring:* Quarterback gets one rush for no yards, a fumble, and minus 8 as fumble yardage. Credit the recovery to the appropriate player.

Example VI: Second-and-10 at own 20 yard line. Quarterback receives snap and tosses a backward pass (pitchout or lateral). The pass is satisfactory, but the ball bounces off the running back's hands and is recovered by an opponent at the 11. *Scoring:* Quarterback gets one rush for no yards and a fumble for minus 9 (fumble yardage). Credit the player recovering the ball with an opponents' recovery.

Example VII: Second-and-10 at own 20 yard line. Same play as Example VI, except that when the running back muffs the ball, it bounces forward, and an offensive tackle recovers on the 25 and runs to the 35. *Scoring:* Quarterback gets one rush for no yards and a fumble. Tackle gets an own recovery and 10 yards (fumble yardage). Credit a first down *rushing.*

Example VIII: Second-and-10 at own 20 yard line. Quarterback hands off to running back; running back's handoff to wide receiver is mis-handled. The ball is recovered at the 12. *Scoring:* Running back gets one rush for no yards and a fumble for minus 8 (fumble yardage).

RUSHING PLAYS

8. When a player recovers his own fumble:

Example I: With ball on opponent's 30, running back rushes to 20, where he is tackled and fumbles. He recovers on the 25 and advances to the 21. *Scoring:* Running back is credited with one rush for 9 yards and is charged with a fumble.

Example II: With ball on opponent's 30, running back rushes to the 29, where he is tackled and fumbles. He falls on his own fumble at the 31. *Scoring:* Running back is credited with one rush for minus 1 yard and is charged with a fumble.

9. When a teammate recovers:

Example I: With ball on opponent's 30, running back rushes to the 20, where he is tackled and fumbles. A teammate recovers the ball on the 25. *Scoring:* Running back is credited with one rush for 5 yards and is charged with a fumble.

Example II: With ball on opponent's 30, running back rushes to the 20, where he is tackled and fumbles. A teammate recovers the ball on the 15. *Scoring:* Running back is credited with one rush for 10 yards and is charged with a fumble. Teammate is credited with no yardage.

Example III: With ball on opponent's 30, running back rushes to the 28, where he is tackled and fumbles. A teammate recovers at the 31—a net loss of 1 yard. *Scoring:* Running back is credited with one rush for minus 1 yard and is charged with a fumble.

Example IV: With ball on opponent's 30, running back is tackled 2 yards behind the line of scrimmage and fumbles. A teammate recovers the ball at the 34—a net loss of 4 yards. *Scoring:* Running back is charged with one rushing attempt for minus 4 yards and a fumble.

Example V: With ball on opponent's 30, running back is tackled 4 yards behind line of scrimmage and fumbles. A teammate recovers the ball at the 34 and advances it to the 29—a net gain of 1 yard on the play. *Scoring:* Running back is charged with one rushing attempt for no gain and with a fumble. Teammate is credited with plus 1 yard of fumble yardage.

Example VI: With ball on opponent's 30, running back is tackled four yards behind the line of scrimmage and fumbles. A teammate recovers the ball at the 34 and advances it to the 32—a net loss of 2 yards on the play. *Scoring:* Running back is charged with one rushing attempt for minus 2 yards and also with a fumble.

Example VII: In the same circumstances as Example VI, the teammate recovers the ball at the 36 and, while retreating in an attempt to elude tacklers, is tackled at the 40—a net loss of 10 yards on the play. *Scoring:* Running back is charged with one rushing attempt for minus 6 yards and a fumble. Teammate is charged with minus 4 fumble yards because he caused the additional loss.

10. When an opponent recovers:

Example I: With ball on opponent's 30, running back rushes to 28, where he is tackled and fumbles. Opponent recovers the ball on the 25. *Scoring:* Running back is credited with one rush for 2 yards and is charged with a fumble.

Example II: With ball on opponent's 30, running back rushes to 28, where he is tackled and fumbles. Opponent recovers the ball on the 32. *Scoring:* Running back is charged with one rush for minus 2 yards and also with a fumble.

Example III: With ball on opponent's 30, running back rushes to 28, where he is tackled and fumbles. Opponent recovers the ball at the 25 and returns it the 32 before being tackled. *Scoring:* Running back is credited with one rush for 2 yards and is charged with a fumble; opponent is credited with 7 yards of fumble yardage.

Example IV: With ball on opponent's 30, running back is tackled at the 32 and fumbles. Opponent recovers the ball at the 28. *Scoring:* Running back is charged with one rush for no yards and also with a fumble.

Example V: With ball on opponent's 30, running back rushes to the 25, where he is tackled and fumbles. An opponent picks up the ball at the 25 and runs it back and fumbles at the 30, where the ball is recovered. *Scoring:* Regardless of which team recovers the second fumble, credit the original ball carrier with one rush for 5 yards and also with a fumble; credit the opponent who recovered the first fumble with plus 5 yards of fumble yardage and also charge him with a fumble.

PASSING PLAYS

11. When a passer fumbles while attempting to pass, charge him with "tackled" and a fumble and with all yardage lost to the point of recovery as yards lost attempting to pass.

EXCEPTION 1: If a teammate or an opponent legally [illegible] deflects a ball the yardage lost is to the point of the [illegible] 6 par. b.)

EXCEPTION 2: If the point of recovery is in advance of the original line of scrimmage or if the player recovering the fumble advances the ball beyond the line of scrimmage, charge the passer with "tackled" for no yards and also with a fumble, and credit the player who advanced the ball with fumble yardage equal to the distance between the old and the new lines of scrimmage.

Example I: With ball on opponent's 30, quarterback goes back to pass and is hit by defense at 38, fumbles and ball bounces backward to 41, where he, a teammate, or an opponent recovers. *Scoring:* Charge quarterback with "tackled," 11 yards lost attempting to pass, and a fumble.

Example II: In the same circumstances as Example I, the ball is recovered at the 35, 3 yards in advance of the spot where the fumble occurred. *Scoring:* Charge quarterback with "tackled," 5 yards lost attempting to pass, and a fumble.

Example III: In the same circumstances as Example I, the quarterback or a teammate recovers and advances the ball to the opponent's 28. *Scoring:* Charge quarterback with "tackled," no yards lost attempting to pass, and a fumble; credit player recovering with 2 yards of fumble yardage.

Example IV: In the same circumstances as Example I, the ball bounces backward to the 41 where it is deflected by an opponent and eventually recovered by the quarterback himself on the 50 yard line. *Scoring:* Charge the quarterback with a "sack" and 11 yards lost attempting to pass plus a fumble and an own recovery. The additional 9 yards lost are the result of a loose ball.

Example V: In the same circumstances as Example I, the ball bounces backward to 41, where an opponent picks it up and runs to midfield before being tackled. *Scoring:* Charge quarterback with "tackled," 11 yards lost attempting to pass and a fumble; credit opponent recovering with 9 yards of fumble yardage.

RECEPTIONS, INTERCEPTIONS, AND RETURNS

12. When a player fumbles after catching or intercepting a pass or on a punt return or kickoff return, he shall be credited with a gain or loss to (a) his original point of advance or (b) the point of fumble recovery, whichever is less. *EXCEPTION:* If the player recovers his own fumble, all yardage gained or lost shall be credited in the category initiating the action.

Example I: A receiver, after catching a pass, is 40 yards in advance of the line of scrimmage when he fumbles. He, a teammate, or an opponent recovers the ball 37 yards in advance of the line of scrimmage. *Scoring:* Play is listed as a 37-yard pass.

Example II: In the same situation as Example I, the receiver recovers his own fumble and advances to a point 45 yards in advance of the line of scrimmage before being tackled. *Scoring:* Play is listed as a 45-yard pass.

Example III: In the same situation as Example I, a teammate recovers and advances the ball to a point 45 yards in advance of the line of scrimmage before being tackled. *Scoring:* Play is listed as a 40-yard pass; teammate who recovered is credited with 5 yards of fumble yardage.

Example IV: Kick return man receives a punt on his own 10, and returns to his 35, where he fumbles. The ball bounces forward to the 40, where he recovers his own fumble. *Scoring:* Kick returner is credited with a punt return of 30 yards.

Example V: In the same situation as Example IV, the ball is recovered at the 40 by a teammate or an opponent. *Scoring:* Kick returner is credited with a punt return of 25 yards; the remaining yardage is treated as being the result of a loose ball.

Example VI: In the same situation as Example IV, the ball bounces back to the 30, where the kick returner, a teammate, or an opponent recovers. *Scoring:* Kick returner is credited with a punt return of 20 yards.

Example VII: Kick return man receives a punt on his own 20, retreats trying to elude a tackler and is tackled at the 17, where he fumbles. The ball bounces back to the 15, where it is recovered. *Scoring:* Kick returner is charged with a punt return of minus 5 yards, regardless of who recovers.

Touchdowns

There are three types of touchdowns—rushing, passing, and returns. The only touchdowns considered touchdowns passing are those that result from a completed forward pass from a teammate. On the score blank all touchdowns should be noted in their respective categories according to the manner made (rushing, passing, punt returns, fumbles recovered, etc.).

Extra Points

Players attempting conversions shall not be charged with an extra point missed when a bad pass from center, or a muff by the ball holder, prevents an opportunity to kick. However, attempts at conversions that are blocked shall be scored as extra points missed. (*EXCEPTION:* If, in the judgment of the official scorer, an error in the center snap or placement of the ball by the holder is the direct cause of a blocked attempt, the kicker shall not be charged with an attempt. The same exception may be applied to field goal attempts.) No fumble should be charged on an attempted conversion.

Note: No rushing attempt, or pass attempt, or completion, shall be credited on an extra point attempt.

Field Goals

Field goals shall be measured from the spot of the kick. Spot of an attempt is dictated by the same principle as used in determining the line of scrimmage.

Example: If any point of the football when kicked rests on or above any yard stripe, credit distance from that yard stripe. If all of the ball rests between yards stripes, credit distance from the yard line nearest the intended goal.

Kicker is not charged with a field goal attempt if he does not actually kick. If player holding the ball juggles it long enough to prevent kicker from making an attempt, charge ball holder with a rush and yardage lost as fumble yardage, plus a fumble and his own fumble recovered. (Also see the exception paragraph in Extra Points section regarding blocked field goals.)

SPECIAL NOTE—If the center snap is *satisfactory* and the holder does *not fumble* the snap or mis-handle the placement of the ball, but is instead smothered at the spot or tackled after he attempts to run, charge the holder with a rush and any yards lost as rushing yardage.

If the play develops as action off a fake field goal attempt, charge the holder with a rush, or pass or "tackled" consistent with the basic scoring rules on scrimmage plays.

All yardage gained by a player in returning an unsuccessful field goal attempt should be noted on the back of the score blank under "remarks."

For blocked field goal attempts, see Blocked Kicks section.

Safeties

Credit a player with a safety when:

A. He downs an opponent behind the opponent's goal line;
B. He causes an opponent to step out of bounds behind the opponent's goal line;
C. He blocks a kick or deflects a backward pass and the ball goes out of the end zone behind the opponent's goal line.

Example I: Fourth-and-10 at own 4 yard line. Defensive tackle blocks a punt. The ball is recovered in the end zone by the punter, and cornerback downs the punter there. *Scoring:* Credit the cornerback with a safety.

Example II: Fourth-and-10 at own 4 yard line. Offensive team decides to allow a safety rather than to kick on fourth down. Punter lingers near end line, consuming time until defensive tackle chases him out of bounds. *Scoring:* Credit defensive tackle with a safety.

Unless a safety falls into one of the categories listed above, no credit shall be given to any individual.

Qualifications for Individual Leaders

Rushing: Most net yards gained (minimum 100 carries to qualify for highest average gain).

Passing: Minimum average of 12 passes attempted per each team's game to qualify. Standings are based on percent of completions, percent of touchdown passes per attempt, percent of pass attempts intercepted, and average gain per attempted pass. Passers are rated against a standard in each of the four categories and the passer with the most rating points is the leader.

Pass Receptions: Most receptions (minimum 32 to qualify for highest average gain).

Pass Interceptions: Most interceptions.

Scoring: Most total points scored.

Punting: Longest average distance per punt (minimum average of 2½ punts per each of team's games, 40 for season). Blocked punts are not charged to individual punter.

Punt Returns: Average per return (minimum average of one return per each of team's games).

Kickoff Returns: Average per return (minimum average of one return per each of team's games.)

First Round Playoff Games

Site Priorities

Two wild card teams (fourth- and fifth-best records) from each conference will enter the first round of the playoffs. The wild cards from the same conference will play each other. Home clubs will be the clubs with the best won-lost-tied percentage in the regular season. If tied in record, the tie will be broken by the tie-breaking procedure already in effect.

Divisional Playoff Games

Site Priorities

In each conference, the two division winners with the highest won-lost-tied percentage during the regular season will be the home teams. The division winner with the best percentage will be host to the wild card winner from the first round playoff, and the division winner with the second best percentage will be host to the third division winner, unless the wild card team is from the same division as the winner with the highest percentage. In that case, the division winner with the best percentage will be host to the third division winner and the second highest division winner will be host to the wild card.

The wild card team will never be the home team, in either the divisional playoffs or the championship games. Any ties in won-lost-tied percentage will be broken by the tie-breaking procedures already in effect.
